King Feisal's Death: The Late Lord Grey Of Felldon: Oxford's Next Chancellor: A Tale Of Princess Elizabeth

(Special Air-Mail Service)

London, Sept. 12.
KING FEISAL

King Feisal's death will be deplored by Englishmen who had the good fortune to meet him while serving in Iraq.

For he was always solicitous about their welfare, always ready with advice in cases of malaria and sand-fly fever, and always prepared to consider grievances.

My impression, whenever I met him, was that he looked "every inch a King." But I well remember a powerful Basra sheikh exclaiming: "He is much too English for us." The Southern Arab, however, is a conservative person.

Nevertheless, it is true that he was much less "Arabic" than his brothers, the Emir Abdulla of Transjordan, and ex-King Ali of the Hejaz. The latter looks—and lives—like an Arab of the Arabs.

"SANDY"

Contrary to general opinion in this country, King Feisal had been a sick man for many years. It was common knowledge in Iraq that but for the care taken of him by Dr. Sanderson—"Sandy" as everybody called him—death would probably have occurred earlier than it did.

Of "Sandy's" solicitude King Feisal was certainly very appreciative, and on almost all the occasions the King travelled abroad he included the doctor in his entourage.

THE HEIR-PRESUMPTIVE

I do not know who now becomes heir-presumptive to the Iraqi throne. Presumably King Ghazi's uncle, the Emir Zeid, Feisal's youngest brother and the only one of the four who has never sat on a throne.

Emir Zeid is a very intelligent and particularly charming young man. Owing to being Turkish on his mother's side, he is more European than his elder brothers, and talks English perfectly.

He was at one time at Balliol, and now represents Iraq at Angora.

JAFAR PASHA'S GRIEF

Ja'far Pasha was terribly distressed. "An act of God" was how he described King Feisal's death, with a gesture of his hands that was charged with feeling.

The Iraqi Minister recalled how he had worked with Feisal for nearly twenty years, and in that time had seen the Arab world transformed.

He told me that he did not think the King's death would make any difference to the presentation of the Iraqi case at the League of Nations.

"We have had a new King," he added, "since ten o'clock this morning, and the Government will go on as before."

but was none the less annoyed at the Duke's appointment.

WHY ASQUITH FAILED

Lord Cave, Lord Grey's predecessor, was successful against Lord Oxford and Asquith, the electors resenting Lord Oxford's candidature for the dual reasons that he had assumed the title of Lord Oxford, and that he was only a B.A., never having paid the necessary fees to become an M.A.

But on the latter ground Lord Grey was still more unworthy, as he went down from Balliol without a degree at all.

LORD JUSTICE LAWRENCE

Lord Justice Lawrence, the Appeal Court judge, who was 72 yesterday, is closely identified with the famous Roedean Girls' College.

This school was founded by his three sisters, and when a young barrister the judge provided some of the finances for the school.

His portrait, subscribed for by past and present scholars, hangs at Roedean.

WESTMINSTER ABBEY SERVICE FOR LORD GREY

Ambassadors, peers, M.P.'s, politicians of all parties, and representatives of all grades of society attended a memorial service for Viscount Grey of Iwerney at Westminster Abbey.

Lord Templemore, Lord-in-Waiting to the King, represented his Majesty, and Captain W. D. Greenacre, the Prince of Wales.

The Dean of Westminster, Dr. Foxley Norris, in a tribute to the memory of Lord Grey, said:—

"Let us make remembrance, before God, of the life of one who has not only a permanent place in history as a great and gentle Englishman and statesman, but also a permanent place in the hearts of men, because by his reverent and careful study of beautiful things he has helped us to understand the beauties, the sights and sounds of meadows and gardens, and of the life of which he loved."

PRAYER FOR PEACE

There was said immediately before the Benediction a prayer for peace of the world.

"God our Father give to the nations of the world a new heart of comradeship, the old man of ignorance and cruelty being done away and the new man put on, renewed in knowledge, to strengthen and to serve the brethren, that every people may bring its tribute of excellence to the common treasury, with fear, and without lust of domination; and all the world may go forward in the new and living way which He hath consecrated for us."

The congregation included the Ambassadors of Italy, Greece, the United States, and Japan, Sir John Simon, Secretary for Foreign Affairs, Mr. Lloyd George, Mr. Churchill, Lord Stanhope, Lord Gainsford, Lord Dawson of Penn, Sir James Barrie, Sir Shirley Bann, Sir Ian Macpherson, Sir Maurice Hankey, Sir Robert Fergus, Mr. J. H. Thomas, Secretary for the Dominions, Mr. J. de Rothschild, M.P., the Lord Mayor of London (Sir Percy Greenaway), Mr. John Burns, and Commander Kenworthy.

THE WATERLOO LION

In England there is among others—the famous White Horse of Westbury, which measures about 170ft. from nose to tail, and is said to have been cut out of the hillside to commemorate Alfred's victory over the Danes.

Perhaps one of the most imposing monuments on the Continent is the big British Lion at Waterloo.

PRINCESS ELIZABETH WRESTLER

A friend who was at the Braemar Gathering tells me that what interested little Princess Elizabeth most was the wrestling.

The Royal party arrived just after the step-dancing had begun. From a spectator's point of view this is the star event of a Highland.

Princess Elizabeth watched it quietly for a little, and then caught sight of the heavyweight athletes

EX-NAVAL OFFICER

Sent To Gaol At Canton

(From Our Special Correspondent)

Canton, Sept. 26.
BEING found guilty of smuggling and other charges of corruption, Lieut.-Commander Wong Shui Tong, formerly captain of the gunboat Kin Yue, was sentenced to ten years imprisonment. The defendant will serve his prison term in the new penitentiary at Nam Shek Tou, three miles south of Canton city.

The Kin Yue is a gunboat of the Canton Naval Patrol under the command of Rear-Admiral Chang Chi Ying. The corruption of Commander Wong was brought to the attention of Admiral Chang who instituted proceedings against the defendant.

Thirty political prisoners were added to-day to the detention quarters of the Canton gendarmes command. These prisoners were brought to Canton from Swatow by the gunboat Fook On. Most of them are alleged Communists caught in various places in East Kwangtung, and three of them are suspected to be members of the Blue Shirt Party. They will be tried by a military tribunal.

Police and gendarmes are watching the movement of suspected secret agents, who are hired to create trouble in Canton. As the leaders of the trouble makers are under lock and key, the danger is believed to have passed.

At night all pedestrians and motor cars passing the headquarters of the First Group Army are subject to search and examination. More policemen are detailed for night duty at Shing Blossom Village, residential district of high officials.

Much excited, she drew the attention of her father and mother to the Highlanders trying to throw each other. Then she darted to the King and Queen with her glad tidings of something really worth looking at.

She would not be satisfied till the whole royal party had smiling allowed themselves to be carried off to watch.

When later she was asked whether she would like to wrestle like that with her small sister, she replied, gravely: "I think we must try."

BE CAREFUL HOW YOU DIET

Reduce Very Slowly

The skin is a storage place for much of the body. When you diet to reduce, the body draws on that storage and burns it up in energy. As the fat storage is used up you lose weight, but also the cushions of fat close up and your skin grows baggy and loose. Quick reduction almost always makes you look old and haggard. Be content to reduce slowly, losing one or two pounds a week, follow a faithful regime of exercise to keep your muscles firm as you reduce. Massage your face deeply with a skin food; pat it in briskly for several minutes, afterwards freshen with an astringent lotion. By keeping the facial tissues active and stimulated, you can firm and tighten them and avoid that discouraging flabby and wrinkled appearance.

There are several "schools" of reducing diets. Each have their followers and advantages. Which one you follow depends to a degree on your own needs and made of life. These are common diet systems in vogue:

Fasting. This is a drastic process—literally going without food for from five to seven days. It is especially appropriate when obesity is accompanied by internal poisoning. For this treatment you must be prepared to spend your week of fasting resting. It would be the height of folly to try and carry out your usual routine while undergoing this drastic treatment.

Begin by taking fruits and fruit juices to empty the intestines thoroughly. Your first foodless day will be the hardest. You will feel hungry and exhausted. This hunger may last four or five days but the chances are, that on the fourth or fifth day you will begin to feel free, clean and renewed. The second day drink orange juice, the next milk, the third day eat a light salad. Then go on to a light varied diet, measuring the amount of food to maintain or reduce further as you require.

One dish diets. This is also a drastic method, but simple to follow if you are one of those people who have to have a rule to keep to in order to keep yourself from over-eating. This method consists of making your meals entirely of one food. Oranges are a favourite choice. An exclusive milk diet is also popular and is desirable when ulcers are present with obesity. For most people a modification of the one-dish diet is more desirable, both from the point of view of appetite and to ensure a proper balance of food values. For example one day a diet exclusively of oranges or other fruit, one day only vegetables, and one day meat alone; then a few days of mixed foods and so on, repeat the schedule: breakfast of fruits, tiffin of vegetables, dinner of meat. It is much easier to eat less if your meal is of one thing only and so the intake of food is limited almost unconsciously.

Eat everything but less of it. This is the simplest method of diet for anyone who is continually eating in restaurants or dining at other people's houses or has a disinterested cook. Most servants have little patience with diet planning. In such circumstances it is easiest to eat what is put before you, but eat only half or two-thirds of it.

FROZEN OR FRESH MEAT

"No Difference In Nutritive Value"

The Ministry of Health states that, on the knowledge at present available, there is no recognizable difference in nutritive value as between frozen or chilled and fresh meat of similar quality.

Further, there is no evidence that modern methods of canning affect the nutritive value to any greater extent than ordinary cooking.

The letter was sent to the Research Committee of the Royal Agricultural Society which had inquired of the Department of Scientific and Industrial Research regarding the relative merits of fresh meat as compared with tinned chilled, or frozen meat.

Oyster Sauce

Take a pint of oysters and heat them in their own liquor long enough to come to a boil, or until they begin to rattle. Skim but the oysters to a warm dish, put into the liquor a cup of milk, or cream, 2 tablespoons of butter a pinch of cayenne and salt. Thicken with a tablespoon of flour stirred to a paste, boil up and then add the oysters. This may be used for fish, boiled turkey, chicken or boiled meat of any kind.

THE PERFECT CAN-OPENER

The perfect can-opener has been for years the object of many guests by hopeful inventors. Some of the latest attempts come very near success, but none of them till just lately has succeeded in abolishing the jagged edge of the can when opened, in addition to overcoming the other difficulties. This has now been done, and if the new opener stands up to long service as well as it does to preliminary tests the problem may be said to be solved.

There will be no more wrestling with obstinate cans at the cost of temper and a cut finger. The cutter, operated by a thumb-screw, takes the top out cleanly and without difficulty, and it will even work on sardine tins which have, as they so often have, lost their keys. The name of this paragon is the "Safety Roll." It looks like rolling on to success as well as safety.

Oystrine Soup

Oystrine Soup is both delicious and nutritious. It is easily prepared and highly recommended for convalescents, can be served either hot or cold.

How to make Oystrine Soup
To make one pint of soup take 1oz. (1 heaping tablespoon of Oystrine Powder, 1 breakfast cup each of milk and water. Mix the powder to a very thin paste with a little milk, add the paste to the water, stirring well and bring to the boil. Put in the milk and allow to simmer for 10 to 15 minutes. Add a little butter and serve.

TO-DAY'S DINNER MENU

Lettuce Soup.
Cold Roast and Stuffed Lamb.
Mint Jelly.
Salad of Mixed Vegetables.
Barley Pudding, Jam Sauce.

LETTUCE SOUP

Ingredients.—Two or three lettuces, two ounces butter, one quart milk (or half milk and half water), one yolk of egg, one onion, two or three carrots, one and a half ounces cornflour, one teaspoonful chopped parsley, pepper and salt.
Instructions.—Wash the lettuces, put them in a pan with the minced onion, sliced carrots, and butter, and simmer gently for twenty minutes.

Mix the cornflour to a smooth paste with a little of the milk, add this to the rest of the milk and then to the contents of the pan. Simmer for about three-quarters of an hour.
Rub through a sieve, return to the saucepan, add the parsley, pepper, and salt. Let it cool a little and add the yolk of egg.

WORTH KNOWING

With a lever 10,000 miles long, a mosquito could lift a seven-passenger automobile.

Wife (to husband, a Covent Garden porter): "Did you bring that dozen eggs I asked for?"

Husband: "Yus, there's one in each basket. I don't believe in putting all me eggs in one basket."

WHEN YOU ENTERTAIN

Sponge Cake With Cream Filling

Ingredients.—2 large eggs, 3 ozs. flour, 4 ozs. castor sugar, tiny pinch salt.

Method.—Make up the fire, so that the oven will be moderately hot when required. Have two very clean sandwich tins, lightly buttered, and lightly dusted out with a tea-spoon of flour, and a tea-spoon of castor sugar mixed. Break the eggs separately into a large bowl, and beat till creamy with a wire whisk. The mixture should be thick enough to retain the impression of the whisk. Fold in the sieved flour and salt, very lightly with a metal spoon. It is important that the ingredients are well blended but at the same time the mixture must be beaten as little as possible once the flour is added. Turn the mixture into the two tins and bake in a moderate oven for about 7 to 10 minutes. When ready, they should be firm on top, and just beginning to shrink from the sides of the tin. Turn the cakes on to a clean folded towel, when quite cold spread one half with Mock Cream, and place other half on top. Dust with icing sugar.

MOCK CREAM FILLING

Ingredients.—1 table-spoon cornflour, butter, size of a large egg, 2 table-spoons castor sugar, 1 tea-cup milk.

Method.—Break down cornflour to a smooth cream with a little

of the measured milk. Boil remainder in a rinsed pan. Add the cornflour, stirring all the time. Beat butter and sugar to a smooth cream with a wire whisk. When cornflour is cold, whisk it gradually into the sugar and butter. Flavour if liked with vanilla, and get aside to become quite cold again, then use as directed.

CHOCOLATE BUTTER FOR ABOVE

Ingredients.—3 table-spoons icing sugar, butter, size of a small egg, 1 table-spoon grated chocolate.
Method.—Melt chocolate in a small basin set over a pan of hot water. Beat together the sieved icing sugar and butter, add chocolate when cool, and if liked a few drops vanilla. Set aside to firm slightly, then use as directed.

CHOCOLATE GLAZE ICING FOR ABOVE

Ingredients.—3 table-spoons icing sugar, 2 table-spoons eating chocolate, few drops vanilla, a little warm water.

Method.—Melt the chocolate (as above). Put into a basin with the sieved sugar. Add enough warm water (a small table-spoon) to make the icing soft enough to coat the back of the spoon thickly. Beat for two minutes, and pour over cake.

REFRESHING MILK DRINKS

Give Needed Food Value

Chocolate is a universal favorite for cold beverages but there are any number of other flavours that are available. Fruit juice, spices, vanilla, almond, pistachio, caramel, maple—in fact, anything you may fancy can be combined with milk to make a refreshing and nourishing drink. The syrup from preserves and jam as well as jelly adds more flavors to the list.

Milk alone or milk and egg is used with the chosen syrup. Of course powdered condensed and evaporated milks can be used as well as fresh milk. Keep in mind that no sugar will be necessary in the drink made with condensed milk.

Remember, too, that the drink made without egg is not as rich in food value as the one made with egg.

It is a good idea to keep a few cans of evaporated milk in the refrigerator all the time. Fruit juices combine splendidly with the undiluted milk to make healthful and delicious food drinks.

PINEAPPLE SHAKE

One cup chilled pineapple juice, 1/3 cup chilled evaporated milk,

1 teaspoon lemon juice, chilled ice. Add pineapple juice to milk and shake hard. Add ice and lemon juice and shake. The rule makes two servings. Any fruit juice can be used in the same way.

This drink with a cookie makes it quite unnecessary to serve dessert for a family luncheon or supper.

ORANGE EGNOG

One egg, 2 oranges, 1 cup chilled milk, 1 table-spoon sugar, few grains salt, crushed ice.

Squeeze juice from oranges and grate rind. Add rind to juice and let stand while preparing other ingredients. Separate yolk from white of egg. Beat yolk with sugar and add strained juice. Beat well and add milk and salt. Mix thoroughly and fold in white of egg beaten until stiff. Be sure to chill orange and egg as well as milk before mixing. This rule makes two servings.

When you serve a drink made with egg you are adding 70 calories of protein and fat as well as vitamins and minerals to the usual glass of milk. This is the case when a whole egg is used for each person.

SOME SUGGESTIONS FOR BRIDGE PRIZES

Mornay's Week End outfits make excellent Bridge Prizes. They are complete even to the tiny bottle of Mornay's Perfume and on the whole makes an ideal gift as well as being useful.

Another very excellent preparation of this well-known maker is the Mornay's Ointment with Benzoin. This is excellent for the face, in fact, oatmeal bags should be on every woman's shelf; the whites to retain her complexion. The average skin cannot stand the ordinary soap, the benzoin being a bleach, is just the thing after being exposed to the rays of the summer sun. Messrs. A. S. Glycerine And Its Uses

A bottle of Glycerine is one of the most useful things you can keep in the house, some people find it difficult to avoid rough hands, and sore throats. Wash your hands in warm water, dry them carefully and then rub in a little glycerine thoroughly. A glassful of hot milk with a dessert spoonful of glycerine mixed in it will ease an aching throat. If your feet are dry, rub a little glycerine into the soles at night. A tablespoonful of glycerine added to a bread or linseed poultice makes it more effective. Diluted with water and boracic acid, and rubbed into the scalp, it is excellent for removing dandruff.

Its Uses In Kitchen and Garage.

If your egg beater or mincing machine begin to stick it can be stopped with a drop of glycerine in the bearings. A substantial dose of glycerine in the radiator of a car will prevent the water from freezing, and a smear over the wind shield will prevent it getting fogged. Smear round the top of a saucepan it prevents milk from boiling over.

PEACH MERINGUE

Out stale sponge cake into round and slightly moisten each with the juice from a can of Maraschino cherries. Make a meringue, using three tablespoons confectioners' sugar to each egg white, and pile it thickly over the rounds, on each of which you have placed a half peach, the cavity of which has been filled with cherries. Bake in a very slow oven for about quarter hour till the meringue is done.

Gooseberry Cream

1 Can of Beulah Gooseberries—Rub through a sieve add half a pint of whipped cream to which add a dash of sugar (about 1 teaspoon) and 1 leaf gelatine dissolved in a very little hot water and allowed to cool. Let in a fancy mould, serve with a custard sauce and Ice Box cookies or truffles. These can be purchased at Lane, Crawford. Can be served in individual glasses. Our readers will be glad to know the Beulah Canned goods may now be obtained at the "China Emporium."

Some facts about Baby's milk that every mother should know

THE purity of the dairy milk used in Baby's diet is of vital importance—but consistent quality is important too. Dairy milk varies in composition according to the district in which it is produced and milk that varies is not good for Baby's digestion. Devonshire milk is richest in the nourishing elements that Baby needs.

That is why "Ambrosia" is such a blessing. It is Devonshire milk exclusively, purified and dried in Devonshire itself as soon as it comes from the cows, by a unique process that retains the important vitamins. The quality of "Ambrosia" never varies and it is many times purer and more digestible than any liquid milk you can buy. For these reasons "Ambrosia" is extensively used and recommended by Hospitals, Clinics and Doctors. It is the ideal Milk Food for Expectant Mothers, Nursing Mothers and Infant feeding.

SAFEGUARD YOUR HEART & HEALTH

FALSE ECONOMY with medicine purchasing is a delusion. It is risky, unsafe, perilous and critical. In the interests of health it is essential to abstain from acetyl salicylic acid preparations. As is well known to medical science, free salicylic acid has an adverse effect on the heart—causes digestive troubles—and other disorders. "ASPRO" has fulfilled all claims made for it. It is pure, safe, and gives certain relief to sufferers and conforms with the standards laid down by the British Pharmacopoeia, the guiding authority of the

medical profession. Read the fifteen principal uses of "ASPRO" listed below. The reason why such definite claims are made for "ASPRO" is because "ASPRO" is both a powerful germicide and an internal antiseptic, and, after ingestion in the system, it is anti-pyretic, anti-periodic, anti-fermentative, antiseptic, and a solvent of Uric Acid. Don't endanger your health with impure medicines. "ASPRO" does not harm the heart nor have any injurious after-effects. Therefore avoid risk by insisting on "ASPRO."

For Over 15 Years—The World's Master Medicine

5 MINUTES

FOR RELIEF WITH 'ASPRO'

There is nothing indefinite about 'ASPRO'. Its service is QUICK—safe, effective and definite. It gives you relief in 5 to 10 minutes and then goes on to dispel or dissolve the cause of the pain, allowing Nature to effect its own cure. Furthermore, you get no harmful after-effects from 'ASPRO', as it is speedily eliminated from the system a few hours after being taken. It neither dopes, deadens nor drugs.

Before You Leave Home Don't Forget Your 'ASPRO'

You leave home as "fit as a fiddle" but never know the moment when fate will prove unkind in the form of a headache—neuralgia or nerve pains, or maybe it will be a rheumatic attack. The slightest derangement of your nervous system may make you feel "nervy" or irritable. The slightest of an accident may upset you for the day. In crowds germ contamination may place you in the quick grip of a cold or influenza. The best protection for such emergency is to make certain that you put a few 'ASPRO' Tablets in your pocket or purse BEFORE YOU LEAVE HOME.

- 15 As a Gargle, 'ASPRO' is wonderful for Sore Throats, Tonsillitis, etc.

FIRST AID FOR MOTHERS

Most children are subject to Tooth-ache, Ear-ache, Colds and sudden bursts of Temperature. 'ASPRO' can be safely given to children so affected. It will soothe the pain away and quickly reduce Temperature.

HOW TO GIVE 'ASPRO' TO CHILDREN

Two simple methods of giving 'ASPRO' to the kiddies are (a) with a little milk; or (b) break the tablet up and administer in a teaspoonful of jam. The dosage is: Children 3 to 6 years, 1 tab/6; 6 to 14 years, 1 tablet; 14 to 18 years, 1½ tablets. 'ASPRO' like any other medicine should not be given to babies under 3 years of age without medical advice.

'ASPRO' is Woman's Best Friend

Possibly the greatest users of 'ASPRO' are women, for whom 'ASPRO' has a special charm, on account of the various periodical experiences with which all women are familiar. They surely know just what a wonderful soother and pain dispeller 'ASPRO' is. Millions of women throughout the World now regularly take 'ASPRO' the safe, sure and effective medicine to relieve their pain and accompanying physical depression, who before had to resort to dangerous drugs, narcotics or opiates. The understanding woman uses 'ASPRO'.

Onions Healthful In Any Season

Tender Green Vegetable Good Source Of Vitamin If Top Are Used

"Eat onions all the year after the doctors may play" runs the old saw. And it's quite true that onions are a healthful food. As a source of vitamins and of mineral salts, they rank with the best of the leafy vegetables.

New onions come under the head of succulent vegetables, for they are fresh green vegetables, which have grown in the sun's rays above the soil. The "dry" onions differ considerably in their food properties although they are rich in mineral constituents and are a wholesome vegetable.

Keep in mind that the green tops of onions are in excellent source of vitamin A and should be used rather than thrown away. Carefully washed, crisped, and shredded, they can be combined with shredded lettuce in a plain green salad or they may be used with other vegetables to give an appetizing tang to the mixture. Minced onion tops with cottage cheese is another popular combination.

Cottage cheese can always be procured from the Dairy Farm.

Macaroni Fruit Salad

One cup cooked macaroni, 1 cup canned diced pineapple, 2 bananas thinly sliced and marinated in lemon juice, 1 cup whipping cream, 2 cups pineapple juice, 1 cup lemon juice, 2 cups sugar, 2 tablespoons cornstarch, 1 teaspoon salt. Cook sugar and cornstarch thoroughly and mix into boiling pineapple juice. Cook in double boiler for 20 minutes, stirring occasionally.

ally. Add lemon juice and let cool. When ready to use fold in cream whipped until firm with salt. Add macaroni, pineapple, bananas to dressing and serve on lettuce hearts with a garnish of fresh strawberry.

"I see an inventor has got up a chair that can be adjusted into a thousand different positions." "I don't see what such a chair would be good for." "It is intended for the small boy to sit on when he goes to church."

GEN. ARAKI AS ALARMIST

"Dangers Confronting Japan On Every Hand"

CRISES AT HOME AND ABROAD

Tokyo.—At a meeting of the War
Councilors of the army, General
Araki, Minister for War, detailed
his measures of policy, which he
had recommended to the Premier,
the Finance Minister, the Minister
of the Navy and the Minister of
Agriculture and Forestry, together
with the motives which prompted
him to act in this positive way.
All the War Councilors present ex-
pressed agreement with the War
Minister's views and promised their
unwilling support of the Minister's
stand, encouraging him to re-
double efforts.

CHINA NURSES A GRUDGE

According to the *Asahi*, the War
Minister explained to the War
Councilors that Japan is faced by
crises at home and abroad. Her
withdrawal from the League of Na-
tions has reduced her to a position
of virtual isolation in international
politics, and the date of her formal
withdrawal synchronises with the
convocation of the second Washing-
ton Conference. This, apart from
all other unfavourable factors,
must be enough to make the posi-
tion of this country very critical.
To make matters worse, China has
been nurturing a grudge against
Japan since the Manchurian affair.
Although she is submissive before
Japan's superior force at present,
her policy of sustained resistance
will persist for a long time to
come. In the meantime, Sino-Amer-
ican relations have been rapidly
growing friendlier, of which fact
the cotton and wheat loan contract
is only one illustration. American
influence has been secretly spread-
ing in China of late at an alarm-
ing rate. It may fairly be said
that America has perfectly secured
aviation and communications
rights. Soviet Russia, which is
contiguous to Manchukuo has also
been behaving in a menacing man-
ner. So far from withdrawing her
forces into the border regions, she
has positively increased them. Par-
ticularly numerous are the aero-
planes mustered at Vladivostok
and other key positions in the Far
East. It is calculated that they ex-
ceed 300 in number, and among
these machines are a few dozen big
bombers with a loading capacity of
seven tons. Soviet Russia may
have no intention of "picking a
quarrel with Japan at the present
moment, because Japan is fully
armed to resist any Russian offen-
sive. If by any chance Japan's
armaments should become inade-
quate, there is no saying but that
Russia will come to adopt a very
hostile attitude.

THE AMERICAN MENACE

America, who is Japan's neigh-
bour across the Pacific, has trans-
ferred her Atlantic squadron to
the Pacific and is now vigorously
expanding her navy. It is not al-
together improbable that in 1933-
1934 and after, when her naval
ratio as against Japan, gains, she
may act in a wayward and unre-
asonable manner. As for China,
she, pursuant to her traditional
policy of playing one foreign coun-
try off against another, would then
probably make common cause with
America against Japan. In such a
contingency, Britain, who is deeply
interested in the Chinese market, is
not likely to adopt an attitude
favourable to Japan. Nor would
Soviet Russia show friendliness to-
wards this country. Russia might
then take a leaf out of the book
of Italy, who, in the world war
adopted an attitude of neutrality
at the beginning, instead of taking
sides with Germany and Austria,
whom she was pledged to support,
and went over to the Allied side
when Germany and Austria were
fighting desperately. Thus viewed,
should any trouble arise in the Far
East in or about 1933-1934, it might
easily assume very calamitous
proportions. The only way to pre-
clude another big outbreak is to in-
crease armaments. If Japan is
possessed of sufficient armaments,
no country will think of embarking
on a reckless war against her.

CANNOT WAIT FOR NAVY

When, some years ago, the navy
laid down the eight-and-eight
squadron programme, the army
could afford to await the comple-
tion of this naval programme be-
fore it started its own increment
programme, but at present the need
for increased armaments is so
pressing that it is impossible to
give priority to the one or the
other. The army and the navy
must launch their replenishment
programmes at the same time to
provide against the fateful days of
1933-1934. In the situation in
which she is now placed, it is of
first importance that national de-
fence should be put in perfect or-
der, and all other measures must
be framed with this essential point
in view. As the situation is urgent,
the War Minister said, he urged
the Premier and other Ministers to
formulate a stable national policy
quickly. In conclusion, General
Araki said that his plan is differ-
ent in conception from those evolved
by political parties and politi-
cians, and consequently it should
not be confounded with them.—

BRITAIN VIEWS GERMAN AIMS

Berlin Acclaims Speech By
Sir J. Simon

BERLIN, Sept. 17.
Great attention was aroused here
by the speech of the Foreign Secre-
tary, Sir John Simon, in Car-
noustie, Scotland, in which he dis-
played great understanding of the
German point of view.
According to press reports the
Minister declared that it has been
realised with satisfaction in Great
Britain that the German people are
showing more and more interest in
their national affairs and that they
want to realise the right to be put
on an equal footing with the other
nations of the European continent.
The Foreign Secretary also ex-
pressed the hope that the National
Socialist movement will give to
Germany the possibility to take her
due place among the nations on a
basis of equality, but nobody
should fall prey to the illusion that
such a basic change could be
effected at the Geneva conferences
within one day.—*Trans-Ocean Asia*

SAILOR PRINCE OF DENMARK

Marriage Last Month

COPENHAGEN, Sept. 12.
The marriage of Prince Canute,
the younger son of the King of
Denmark, and his cousin, Princess
Caroline Mathilde, will take place
to-morrow at Fredensborg Castle.
The Princess was born in 1912 and
is a daughter of Prince Harald,
brother of the King. The Prince,
who is 33, is a naval officer and is
highly popular.
About a hundred Royal guests
have already arrived at the castle,
including the Norwegian Crown
Prince and Crown Princess, the
Swedish and Belgian Crown Prin-
cesses, the Grand Duke of Mecklen-
burg, and Prince Hubertus of
Prussia, the third son of the Ger-
man ex-Crown Prince. After the
wedding ceremony in the chapel of
the castle a banquet will be given
at which about 150 guests will be
present.
In the last few days wedding
presents have been received from
all classes of the population. One
of the most striking has come from
a soldier, who was formerly in at-
tendance on Prince Canute. It is
an ancient goblet inscribed with the
monogram of King Christian V.,
and had been in the possession of
the soldier's family for 250 years.

WESTERN FILMS AND ORIENTAL TRADITIONS

Damage to European Prestige

BY HORACE HARRIS.

An active movement is afoot in
India to secure a film censorship
which shall guarantee the respect
of native religion, morals and
tradition. Nor is India alone in
her animosity to Western-made
films.

The current issue of the Inter-
national Review of Cinematog-
raphy, the monthly organ of the
League of Nations Cinema Insti-
tute in Rome, remarks that there is
also evidence to prove that the
Western film is so opposed to
Moslem mentality that the average
man finds in it a just and reason-
able argument for refusing the
emancipation of women. Further-
more the last few lines of the Aus-
tralian Commonwealth Censorship
Office report makes it quite clear
that even among peoples of Euro-
pean origin who now live in new
countries, there is a tendency to
react against films which offer un-
desirable pictures of manners and
"are likely to corrupt the simpler
and healthier ideas of new na-
tions."

In view of these facts the Rome
Institute is commencing an enquiry
into the effect of films on native
peoples. It is a good idea, and
one of information that is already
being to hand and that the West
is trying to bring to the attention
of the world.

to publication.

The first results from the East
would seem to bear out the worst
fears that have been expressed as
to the way in which the indiscri-
minate showing of films tends to
bring the white races into disre-
pute. The International Review re-
ferred to above says "The peoples
of the East, who have nothing to
envy us in the matter of intellec-
tual and who are quite ready to
follow us along the path of pro-
gress, exhibit a distrust of such
of our films as show them the less
beautiful and admirable sides of
our life through artificial and com-
plicated sentimental situations.
These give the impression that the
Western world spends a very large
amount of its time solving love
problems. Can anyone blame these
peoples? These things slow down
the progress of Western civilisation
among these nations who rightly
enough insist that only our best
things will be welcomed by them."
All civilisations have their de-
fects. To display the faults and
drawbacks as blatantly as possible
is scarcely advisable when we have
previously belauded our own par-
ticular brand. If, therefore, the
Rome Institute's enquiries have
any effect upon film production for
export and distribution in Eastern
lands, it will be a notable step for-
ward.

THE INFERNAL MACHINE

Laughs Galore at the King's Theatre

The title, "Infernal Machine" for a picture would appear to mean that such picture must, by all rules and regulations, be a thriller—one of the "Dracula" type, but if one went to the King's Theatre where it is running, just now, one would see a very different story all together.

The leading roles are taken by Miss Genevieve Tobin, and that versatile player, Chester Morris, and when these two team together, laughter and breathless moments would seem to be the order of the day.

Morris is a stowaway on a big ocean liner, having followed Miss Tobin, with whom he has fallen violently in love. Everything seems to be going along excellently when a redologram is received that an infernal machine has been planted aboard the ship, and the passengers are doomed to destruction.

"THE KID FROM SPAIN"

Coming To The King's

Eddie Cantor, the famous pop-eyed comedian, is shortly to be seen at the King's Theatre in "The Kid from Spain," a bull-fighting story. Those who have seen "Whoopee" and "Palmy Days" will no doubt remember him as a nervous and bubbling mischief-maker, but in "The Kid from Spain" he is seen as an "unintentional" bull fighter!

The story opens with a beautiful bathing scene adjoining a girl's dormitory, in which poor Eddie is found. As a result of this he, together with another schoolmate Ricardo (Robert Young), are expelled from the school. Persuaded by Ricardo, Eddie decides to go to Mexico, but on the way he gets involved in a bank robbery. In order to shut his mouth, the leader of the gang shanghaies him to Mexico where he unwittingly claims to be Don Sebastian II, the famous matador.

Meanwhile his school-mate, Ricardo has his love affairs to settle, for the girl's father objected to him seeing his daughter. In order to save the girl from marrying another Ricardo seeks Eddie's aid, and together they go through many amusing situations. While Ricardo is imprisoned for assaulting his rival, Eddie endeavours to save the girl by taking her out of the house, but he gets the wrong one (Lydia Robert). Instead!

The day of the bull fighting arrives. Eddie has to go into the arena to uphold his alleged reputation! The way in which he fights the bulls produces many a laugh in which we are sure you will take part when you see the picture.

Besides the amusing story, the picture has three song hits "In the Moonlight," "What a perfect combination," and "Look what you've done," and also you will have the chance of seeing Sydney Franklin, the American bull-fighter in action.

The picture affords Eddie Cantor many opportunities for wisecracking, and the supporting cast, including Lydia Roberts, Robert Young, Ruth Hall and Noah Berry is excellent. The dancing scenes by the Goldwyn girls are quite beautiful, and the picture is very well worth seeing.

A near panic follows and Morris takes advantage to win the girl. He announces that he had planted the bomb and promises he will reveal its hiding place if Miss Tobin will spend an hour with him.

Everyone, including her aunt and niece, welcomes her sacrifice on her part until Morris reveals that he knows nothing about the bomb. An unusual twist to the story brings a surprising melodramatic denouement with enough laughs to satisfy anybody.

"GABRIEL OVER THE WHITE HOUSE"

To-day at Queen's Theatre

That the historic settings of "Gabriel Over the White House," sensational drama of an American President showing to-day at the Queen's Theatre, are entirely authentic was made certain by the presence at the Metro-Goldwyn-Mayer studio of Eugene Thackeray, expert on national affairs.

Thackeray qualifies on knowledge of the White House by virtue of eight years as White House correspondent for the New York World. He started his career during the last part of Wilson's administration and served at various intervals during the administrations of Presidents Harding, Coolidge and Hoover.

EXACT TRADITIONS FOLLOWED

It was with his guidance that the offices and study of the President were reproduced, exactly as were also the East, Blue, Red and Green Rooms of the executive mansion. He also advised Director Gregory La Cava in the minute details of such ceremonies as the Presidential inauguration, the signing of the Hammon Treaty "for war debt payments and the President's procedure when meeting a guest, such as a meeting between President Jud Hammond and Nick Diamond, King of Racketeers, in the present picture.

Thackeray was constantly at the side of Walter Huston, who plays the role of the President, when he took over the powers of a dictator, lined gangsters against a stone wall

PUBLIC SALE OF OPIUM

Prices Obtained by the Official Stores.

Kaifeng, Sept. 10.

Opium is publicly sold in this city, and, according to investigations made recently, there are nine official shops on a large scale which are required to sell no less than 1,200 Chinese ounces monthly, and thirty smaller official shops which have to sell a minimum of 300 to 500 Chinese ounces monthly. A fine of from \$9 to \$27 is the regulation penalty for not doing so.

The average daily sale in the city is generally over 3,000 ounces of the seven varieties obtainable. These are divided into the kinds obtained from Shensi, Szechuen, Kweichow, Yunnan and Honan itself. Shensi produces a pure grade called a "ta ching" and another sort from the south of that province called "wei man tu." Szechuen produces its superior grade called "chuan chien tie" and com-

moner stuff known as "chuan tu." Kweichow imports "chuan tu" or brick opium while Yunnan, one grade only, compares with the "pen ti tu" or Honan opium, which, in turn, is divided into the "tunglu-tu" or East Honan grade and the "hailu-tu" or Western grade.

Prices match their value, the Szechuen drug fetching from \$2.75 per Chinese ounce in contrast to the Honan material which costs only from \$1.90 to \$2. Shensi opium costs roughly \$2.20 per Chinese ounce.

Special Curing Methods.

Wealthy people and the officials are in the habit of employing Canton experts to cook the opium in Yellow River water. After being thus brewed, the stew is put in porcelain pots and buried under a banana tree for a period of from two to four months. It will then have a particularly fragrant taste. The baking of the opium in special lamps is also a peculiar art. So much so that high officials attempted to have their concubines trained up for special service in this way. The ladies, however, do not make very apt scholars even after a course of several years. In fact, it has become almost a saying that it is easier to have a son go through college abroad for a B.A. hood than to train a concubine into the mysteries of baking opium to any degree of nicety. Well baked opium is acknowledged to have a peculiar and very gratifying taste.

Significance of the Pipe.

Opium smokers are particular about the pipe they use. These are carefully selected for their individual merit and significance. Generally, the belief holds that the "kuai chi" or special kind of grass pipe, can save the smoker from T.B. while the "hung hao" or yellow wood pipe, prevents the smoker's feeling unpleasant on stomach trouble. The Canton sugar cane pipe, however, is particularly excellent as it not only prevents the smoker from catching cold but also saves him from general "unpleasant feelings." A proverb, "Yen pa san tui," says in effect that a mixture such as is obtained from the Shensi, Szechuen and Yunnan opiums, has particularly enchanting tastes. Good opium should always, when baked out, the lamp, give off innumerable bubbles "like a lion's head."

Government Inconsistencies.

The provincial Civil Ministry, although having recently caused the prevention of further opium planting, also set up elaborate regulations for the public sale of the drug. These regulations go so far as to provide special facilities for the public generally to become accredited smokers. In consequence of these lately devised rules, the local Public Safety Bureau is endeavouring to register all habitual smokers by a ticket system. These tickets cost \$5 to be renewed after every six months. Traced through this source, a local opium seller of some standing in the city, estimates that one-fourth of the city are habitual opium smokers. It is suggested here that the new regulations point to total abolition of opium growing and a greater effort to stamp out the use of pressed stocks are sold out.

CHARLIE CHAPLIN'S FEND

More About Paulette Goddard

Charlie Chaplin has once again brought fame to an unknown film girl.

He always does. In his last three films he launched anonymous Hollywood girls to the peak of fame. Georgia Hale, Virginia Cherrill, and Merna Kennedy, respectively the stars of "The Gold Rush," "City Lights," and "The Circus," were virtually unknown until Charlie came along and threw the light of his brilliant personality upon them. Then they were famous. Afterwards they were not so famous.

Paulette Goddard, to whom Charlie was reported to have been engaged six months ago—in some quarters it was said they had married—has already started work on the new picture he is making.

She is the mystery girl in a mystery film. Nobody knows the name of the film, and only one man in London—Mr. Murray Silverstone, managing director of United Artists—knows what it is about. He is pledged to secrecy. Charlie just hates having his films talked about.

A Goldwyn Girl.

Paulette Goddard is one of the famous Goldwyn girls. She was a dazzling "unknown" who kicked her heels about in the shows of the Eddie Cantor films. Which one it was in that dashing parade of pulchritude nobody knows. Mr. Silverstone said to me today:

"Charlie always picks his talent from the ranks of the unknown. He finds it easier to mould them to his style of direction if they have no experience than if they are fully fledged stars."

"While in Hollywood a few weeks back, consulting with Chaplin on his film, I met Miss Goddard, who is an entire newcomer to the screen. She is an exceptionally pretty girl with brains as well as beauty, and in my opinion Charlie has a brilliant 'find' in his starring partner."

"She will have a pretty hard task to live up to the part assigned to her, but she is a hard worker, with a strong sense of drama, and great natural ability."

She is certainly versatile. One report states that she changed the colour of her hair, at a moment's notice from platinum to ordinary blonde to please Charlie.

Heroin, or the white powder, is also sold here "secretly." The pure stuff, "piao poi," is foreign made costing about \$7 per Chinese ounce while the "yia she," which is slightly tinged a yellow colour and is a Chinese product, costs about \$5 per ounce.

In Honan, all 37 haion or districts produce opium but the finest grades come from the following eight: Yungcheng, Haisai, and Chenchow in eastern Honan. Lojing, Yungking, Wanglan and Lo-yang in west, and Hsiangcheng in the south-west.—"N.C.D.N."

LAST YEAR'S P.W.D. ACTIVITIES

A Dozen Town Planning Schemes

WHITFIELD BARRACK AREA CONSIDERED

The report of the director of public works for the year 1932 states that the European staff comprised 133 officers, and the non-European approximately 357.

BUILDINGS COMPLETED.

Works completed were:—A new No. 9 Police Station; Market at Sai Ying Pun; Chair Coolie Shelter at Barker Road; Temporary Fire Station at Wanchai; Hut for Police at Bay View Police Station; Garage for the Prison Department in Arbuthnot Road; Alterations at the Government Civil Hospital to provide office accommodation and an Isolation Ward; Blanket Store at the Central Police Station; Female Prison at Lai Chi Kok; Postal Kiosk at Kowloon City; Market at Praya East Reclamation; Latrine at Possession Point; and Motor Cycle Garages at Sheung Shui.

Works under construction were:—Crematorium at Kai Lung Wan Cemetery; Extension of the offices of the Public Works Department; Additions to Kowloon Hospital comprising a new Ward Block, Block of Quarters for Nurses and a House for a second European Medical Officer; General Diseases Clinic at Kowloon; New Cattle Lirage at Ma Tau Kok Cattle Depot; Wireless Broadcasting Station at Kowloon and a Medical Welfare Centre in the New Territories.

COMMUNICATIONS.

Works completed included:—8' cement concrete foundation with sand-carpeting at Des Voeux Road Central from 'Centre Street' to Western Street; 8' cement concrete foundation for granite setts at Connaught Road, west of Centre Street; Surfacing of Peak Road with non-skid cement surfacing; Improving and strengthening main roads chiefly between Castle Peak and Ping Shan; Diversion of Tai Po Road near 54 milestone; Surfacing and tarmacking road to 'Texaco' installation at Tsau Wan; Reconditioning Sha Tau Kok Road between Fanling and Kwanti Race Course.

Works under construction were:—1st Section of new 75' Road between Chaseway Bay and Ming Yuen; Refuse Dumps at Cheung Sha Wan and Sung Wong Toi; Children's Playground, Cox's Road; the strengthening and improvement of road surfaces in the New Territories was continued, an additional 4' of macadam being laid and tar-painted between the 114 and 124 milestones—Castle Peak Road, and at Mei Po. Approximately eleven miles of tar-painting was carried out in addition to new work, to preserve previously strengthened portions.

Approximately 312 miles of road surfaces in the Colony were satisfactorily maintained.

The erection of the first hangar at Kai Tak Aerodrome was completed early in the year.

THE COLONY'S ACCOUNTS

Well Kept—And Some Criticisms

The Director of Colonial Audit in his report on Hong Kong Government accounts remarks that "Subject to the comments contained in this report, the accounts for the year under review were satisfactorily kept and rendered, and except as hereinafter mentioned the system of accounting appears to provide sufficient checks against irregularity and fraud."

The actual Revenue for the year amounting to \$33,949,716.29 fell short of the Estimates by \$441,793.71, and the actual Expenditure of \$32,050,233.52 was \$2,931,377.48 less than the estimated figure of \$24,881,681.00.

INSURANCE COMPANY DEPOSITS.

In previous years these deposits have not been included in the accounts of the Colony; but in view of the fact that Insurance Companies, carrying on business in the Colony, have to deposit certain sums in cash in an approved bank in the name of the Registrar of Companies, it was pointed out by this Department that such monies were in the custody of the Government and should therefore be included in the Colony's accounts.

ADJUSTMENT OF EXCHANGE.

The Adjustment of Exchange Account, which was incorrect in 1931, remained incorrect during the financial year under review owing to the non-observance of the procedure laid down by the Secretary of State.

TOWN PLANNING.

Development has proceeded generally on the lines indicated in the recommendations laid down by the Report of the Town Planning Committee, 1932. Minor amendments and alterations to levels were made where necessary to conform to present conditions.

The most important of the schemes which were prepared comprised:—

(i) the redevelopment of area bounded by Pedder Street, Queen's Road Central, the Naval Dockyard and the Harbour.

(ii) the improvement of the Morrison Gap—Wong Nei Chong Road junction;

(iii) the redevelopment of the area bounded by Yee Wo Street, Caroline Road, and I.L. 467, at present covered by old and dilapidated slum property;

(iv) a development of the valley lying to the North East of Aberdeen Village;

(v) two schemes were prepared for the development of the low-lying area south of Little Hong Kong, one showing development as a recreational centre, and a residential quarter of European Garden City type, the other showing development as an industrial area;

(vi) a layout was prepared for completion of the development of the northern end of Stanley Peninsula;

(vii) a road plan was prepared for the western slope of Jardine's Lookout between Tai Hang Road and the Catchwater; to open up this area for development;

(viii) a scheme was prepared showing a site for a new magistracy at King's Park with a residential and recreational layout adjoining;

(ix) a scheme for the development of Kowloon Tsai, in course of preparation last year was completed and approved by Government;

(x) the proposed development of a site for the new Central British School on Argyle Street with considered and a tentative layout drawn up;

(xi) a scheme was prepared for the development of the area north of Cornwall Street, Kowloon, Tong for residential purposes; and

(xii) proposals were also prepared for the development for residential purposes of that area known as Whitfield Barracks.

Sketch plans were prepared for the following proposed buildings:—New Post Office and Government Offices at Kowloon; Vernacular Normal School for women; Bungalow a. Fanling for His Excellency the Governor; Residence for the Director, Royal Observatory, Kowloon; Quarters for Officer-in-Charge, Cape D'Aguilar Wireless Station; Belilios Reformatory; Latrine, Praya East.

During the year transfer were made from the Adjustment of Exchange Account to the Exchange Account.

At the close of the financial year a sum was transferred from the Exchange Account to the Adjustment of Exchange Account for the purpose of obtaining the correct balance in the latter account.

Transfers between these two accounts are irregular.

DEPARTMENT BANK ACCOUNTS.

The position as regards these bank accounts remains unaltered, and in view of the remarks made in the Report for 1931.

It is again necessary to point out that a considerable amount of money was charged in the year's accounts which had not in fact been disbursed; it appears necessary to deal with this subject. The Board of Survey on the Treasury referred to in paragraph 30 of this report, reported that they found a total sum of \$84,520.87 in cash, and a sum of \$631,499.98 in partly or wholly drawn up cheques representing disbursements in respect of 1932 and not yet completed. These purported disbursements are shown as final expenditure in the Treasury accounts for 1932, and it appears irregular that a financial system should obtain which permits such a state of affairs. In a subsequent paragraph it will be explained that certain items of expenditure, that appear as final entries in the Treasury accounts were in fact subsequently embroiled.

TRIBUTE TO MR. STEAVENSON

Retiring After Thirty Years In Colony

PRESENTATION AT MESSRS. DEACONS

Mr. D. V. Steavenson, the well-known local solicitor of the firm of Messrs. Deacons, who is retiring shortly, after a connection with the Colony of over thirty years, was presented with a token of esteem by his colleagues at Messrs. Deacons yesterday.

Mr. J. Scott Harston, who himself retired from Messrs. Deacons a few years ago, was invited to make the presentation.

Born in Kettering, Northamptonshire, England, on October 11, 1877, Mr. Steavenson is the youngest son of Major J. L. Steavenson, late of the 87th Royal Irish Fusiliers, and was educated at St. Paul's School, London. In 1904, he was articled to Messrs. Steavenson and Coulwell of No. 5, Fenchurch Street, London, and qualified as a solicitor of His Majesty's High Court of Judicature on July 7, 1902. He came to Hong Kong in November, 1903, to join Mr. Victor H. Deacon, of Deacon and Hastings and was enrolled as a solicitor in the Supreme Court of Hong Kong in 1904 and subsequently also enrolled in H. M. Supreme Court for China and Korea.

MR. SCOTT HARSTON'S TRIBUTE.

Mr. Scott Harston in making the presentation said:—Mr. Turner, Ladies and gentlemen.—Mr. Turner has very kindly asked me to attend here to-day for the purpose of voicing the occasion and on your behalf presenting to our friend and colleague Mr. Steavenson, as a tribute of affection and esteem, the Silver Salver engraved with the names of its donors which is now before you.

In the first place, I wish to say that in view of my long association with Mr. Steavenson, I regard Mr. Turner's request as a great honour to myself, for which I thank him.

I have known Mr. Steavenson for a period of very nearly 30 years. I well remember his arrival in the Colony towards the end of the year 1903, when he came out from England to join the late Mr. Victor Deacon, whose partnership with Mr. John Hastings was then nearing its conclusion, and who as from the commencement of the year 1904 entered into partnership with Mr. Looker and Mr. Frank Deacon under the style of "Deacon, Looker and Deacon."

On the day of Mr. Steavenson's arrival, Mr. Victor Deacon invited me to meet Mr. Steavenson and Mr. Holbrow (now a member of the firm of Messrs. Hansons of Shanghai) who had arrived with him. At dinner at the Club, Mr. A. G. Stokes, a shareholder then in business here—who (Continued at foot of next Col.)

CONTRACTS FOR PUBLIC WORKS.

A visible improvement has been made in the control of these contracts, and it is essential that strict control should not be relaxed.

One case occurred, however, on which this Department had to make submissions to the Government. On a contract which should have been completed on the 27th April, 1931, extensions first of six months then of three months were granted. Early in July, 1932, the contractors were warned that up to the 31st May 1932 they had become liable to a fine of \$1,200, but on the 3rd December, 1932, the work having been completed on the 28th November, 1932, the fine up to the 31st May was rescinded and a retrospective extension of time granted. A penalty of \$1,200 only was enforced instead of a penalty of \$5,740.

POLICE DEPARTMENT.

Theft from the Charge Room. In the latter part of December the Chinese Constable who had been on special Charge Room duty for many years was found to have absconded and the sum of \$200.75 to be missing from the Charge Room Safe.

The money is being refunded. A shroff employed in the Accounts Office of the Police Department failed to report for duty after the Chinese New Year holidays (1933), and subsequent investigations disclosed that he had before his departure misappropriated various sums of money amounting, so far as has been established, to a total loss of \$3,322.

The matter has been reported to the Secretary of State.

OPIMUM MONOPOLY.

The revenue derived from the sales of prepared opium during the year shows a decrease of \$996,770.75 on the estimated revenue for the year. The decrease of the sales as compared with the previous year is accounted for by decrease of sales of 36,862.96 Hong Kong Prepared Opium, and 8,926 Kamshan Opium.

"HONG KONG RESERVE" Breaks Out At Repulse Bay

That all-too-common malady, "Hong Kong Reserve" broke out in Repulse Bay yesterday when the annual M.C.C. Beach Gala was held. After the tiny tots had held their pyjama parade, with every enjoyment and success the officials announced that "there will now be an event for those aged 15 and over. Several times this announcement was made but there was no response to the call and just as the judges were about to leave the "arena" one lady—Mrs. Nagel—walked forward and when, after a few minutes had elapsed, no other competitor came forward, she was awarded first prize.

Taken on the whole, the show was an unqualified success, though at one stage it seemed as though a postponement was inevitable as the thunder-storm that broke over Victoria threatened Repulse Bay. However, the weather held, and after a few drops of rain, it cleared, and things went "merrily on."

The kiddies had a great time with the side-shows which included "Aunt Sally," a chute, and lucky ponds. Men from the Navy were responsible for these and they are to be congratulated upon the success they made of it.

The guests at the official tea-party were:—H.E. the G.O.C. and Mrs. Borrett, Hon. Mr. E. D. C. Wolfe and Mrs. Wolfe, Mrs. T. H. R. Shaw, Mr. L. N. Murphy, Hon. Mr. Gordon Mackie, Mr. S. H. Dodwell, Major and Mrs. Swire, Hon. Dr. Kotewall, and Mr. Tang Shiu Kin.

At the end of the races Mrs. Borrett gave away the prizes, after which she was accorded three hearty cheers.

OLD TIMES RECALLED.

I vividly recollect the occasion. After dinner, we adjourned to the Billiard Room, which was then situated on the first floor of the Club on the space now occupied by the "Red Room," where a game of "Snooker" took place, wherein I played the part of onlooker, and I remember that Mr. Steavenson commented to me somewhat caustically on the lack of skill with the cue shown by Mr. Steavenson and his confere, to which I answered that such lack of skill probably augured well for their future success as Solicitors!

My relations with Mr. Steavenson have throughout been very pleasant. I always found him the soul of honour, a conscientious worker and of the type of English gentlemen which Mr. Victor Deacon himself was, and I am sure that I am giving expression to the sentiments of those present when I say that we one and all regret exceedingly that Mr. Steavenson is severing his connection with the firm which he has served so meritoriously during the course of so many years. We are, however, glad to know that Mr. Steavenson is not terminating his sojourn in the Colony, and that he will in due time resume his residence here.

And now, Ladies and Gentlemen, I will, on your behalf, present to Mr. Steavenson this token of your feelings towards him, with our best wishes for his future welfare.

MR. STEAVENSON'S THANKS.

In reply Mr. Steavenson said:—"I cannot thank you enough for giving me this handsome token of your esteem. I accept it with very true feelings of thanks."

Mr. Scott Harston has said a good deal of the old experiences we had when I first came out here."

"When I joined the firm of Deacon, Looker and Deacon, it had more salaried solicitors. There was a small staff of 10 clerks and we had a floor situated at 10 Queen's Road Central. On the second floor was a boarding house kept by Mrs. Watling."

"I wish to thank Mr. Scott Harston very much for attending here, especially as I understand he is not in the best of health, and I thank you all for this handsome silver salver."

The ceremony was attended by many local solicitors.

PARTNERS FALL OUT

Dispute Brought Into Court

The sequel to the failure of the China Printing Press firm, was a partnership dispute brought before Mr. Justice Lindsell at the Summary Court yesterday.

Fok Shu Ming, Chiu Keung Wa, and Chan Kwok Kwong, all of Princes Building sued Tsang Bui Tong, alias Bui Bing Tong, alias Bui Bui Tong, c/o 37, Connaught Road Central, for \$260 and costs.

Mr. W. M. Brown, of Hastings & Co., represented plaintiffs and Mr. P. Sin appeared for defendant.

Plaintiffs were stated to be receivers of the partnership which formerly carried on the business of the China Printing Press. All the partners agreed to contribute additional capital in proportion to their shares, and to the extent of 50 per cent. of their shares. It was contended by the plaintiffs that defendant did not pay his share which amounted to \$250.

Evidence was given by Fok and Chiu who were cross-examined closely by Mr. Sin as to the accuracy of the accounts of the firm.

The case was adjourned to October 17.

RECEPTION TO MRS. HALL

By Members Of St. Andrew's Church.

St. Andrew's Church, Kowloon was the scene of an informal gathering yesterday afternoon when Rev. and Mrs. Rogers entertained friends and members of the congregation to meet His Lordship the Bishop of Victoria and Mrs. Hall, who has recently arrived from England. After tea had been served Mrs. Rogers introduced Mrs. Hall to those present who were delighted with her charming personality. Although His Lordship and Mrs. Hall have only been here a short time, they have endeared themselves to the community.

NATIONAL PLANNING

Mr. A. Bianconi, the Consul-
General for Italy, spoke on Tues-
day to the Rotary Club as an
enthusiastic Fascist, on the indus-
trial development of Italy during
the last ten years. Visitors to
Italy, and foreigners going on
leave generally touch at least at
Naples, will bear out the truth of
his claims. There is no compari-
son, for instance, between Naples
of ten years ago, and the well
managed town that it is to-day.
Nor will the fair minded person
even complain that Italy has lost
her old-time beauty and charm.

The Consul-General began with
a review of the way in which the
Fascist Government went at the
outset to the very heart of the
problem that was ruining British
Industry—the war between capital
and labour. Capital and Labour
were forced to take their disputes
to arbitration. In England we
were content with the Whitley
Councils, which could be used or
disregarded as Trade Unionists and
employers pleased. The Fascist
Party was strong enough to coerce
the Trade Unions into reason, and
to put their hands on agitators who
were using the working man's or-
ganisation for political purposes.
Industrial peace was a fine
foundation for the steady construction
of an organised state. The

Fascist cut the knots tied by this
and that obstructive group, fur-
thering its own interests, under
the shelter of some excellent-if not
very applicable theory of political
thought. A babel of clamour was
replaced by reason and order.

Italy's reconstruction, as Mr.
Bianconi emphasised, has been
based upon a recognition of facts.
Italy is primarily an agricultural
country, deficient in minerals, par-
ticularly coal and iron. The great
aim has been the building up of a
prosperous rural population. Agri-
culture has been modernised;
landlords have been made to do
their duty by their inheritances,
and the state has put in hand
three great developments, mainly
in the interests of the countryside,
a national programme of road-
making, cheap electricity largely
from water-powers generators, and
the draining of the malarial
marshes, which have been the
bane of Italy, and in particular,
the country around Rome, since
classical times.

Industrial policy has been con-
ducted upon far-seeing lines. The
home-market has been the first
consideration and only firms that
were able to find a ready and sure
sale abroad were encouraged in
foreign trade. What a contrast to
the indiscriminate production of
stuff that may or may not be
needed, often has to be dumped,
and ends by causing economic
crisis abroad! Factories are not
even allowed to start unless their
promoters can convince the Gov-
ernment that there is a real de-
mand for the goods they are to
supply. What curtailment of
liberty and enterprise; what viola-
tion of a thousand pet theories and
principles; what openings for
bribery and abuse! And yet Italy
seems to surmount such dangers.
We have in England one such
controlled activity, the liquor
trade. The price and quality are
regulated, and the number of
licences, according to the need of
each district. Fascist principles in
"the trade" have kept it prosper-
ous, licences are generally
pillars of extreme rectitude, and
England has changed in a genera-
tion from one of the most drunken
countries in the world to the most
sober.

OBITUARY

Mr. M. M. Macfarlane

The death occurred on Tuesday
on board the B. & S. Hunan,
which was on its way to Hong-
kong from Swatow of Mr. Mac-
farlane, the accountant of
the Talkoo Sugar Refinery Co.
(Messrs. Butterfield & Swire).
The death of Mr. Macfarlane
came as a great shock to his
many friends, for he was in the
best of health when he went on
his annual leave about three
weeks ago. He arrived at Swatow
from Tientsin on Tuesday morn-
ing and after dinner he had a sud-
den heart seizure from which he
died.

A native of Fife, Scotland,
the late Mr. Macfarlane was 48
years of age and had been with
Messrs. Butterfield & Swire for
about 17 years. Before that time
he was engaged in missionary
work and had been service at the
Upper Yangtze districts. He was
transferred here from Shanghai
about two years ago.

He is survived by a widow and
three daughters, all of whom are
in the Colony, and to them the
depest sympathy is extended.

The Funeral.

The funeral took place at the
Protestant Cemetery, Happy Val-
ley, last evening, the Rev. E. G.
Powell, Minister of the Union
Church, officiating. A large num-
ber of deceased comrades and
friends were present including
Mr. T. H. R. Shaw, Manager of
Butterfield & Swire; Dr. A. J.
Skinn and Messrs. J. W. Tate, A.

COOLIES CATCH THIEF

Sentence Of Six Weeks
Hard Labour

Charged with stealing a rattan
basket containing swimming kit be-
longing to Mrs. W. D. Fiddle-Wil-
son of the Peak, a Chinese named
Ho Hau was sentenced to six
weeks' hard labour by Mr. Balfour
at Central Magistracy yesterday.

The basket had been left in a car
while complainant went into the
Wing On Company.

When she came out she saw the
defendant with the basket. She
attempted to stop him but he got
away and it was through the efforts
of a crowd of coolies that he was
finally caught.

the first, has had the kettle of
Marxian doctrine tied to its tail.
It is only where Marx has been
forgotten and Russia remembered,
that Lenin and Stalin made prog-
ress with their gigantic task. To
a certain extent the Scandinavian
countries and Holland have been
governed for a very long period on
reasoned lines, so that to-day they
have reached a high degree of
civilisation.

England has been moving, very
slowly, in the same direction;
especially since our national pros-
perity was thrown away by five
years of capital and labour civil
war, following the end of the World
War. The National Government is
planning trade by treaties of reci-
procity, with the Dominions and
old clients like Denmark and
Argentina. Nothing on such lines
had been possible under Free
Trade, but tariffs have enabled a
start in putting exports and im-
ports on a reasonable basis. In
China there is a four year plan,
and provincial governments are
working as far as possible accord-
ing to programme.

BRITISH AIR
FORCE TRAGEDY

Crew Of Bomber
Incinerated

London, Sept. 27.

Disaster yesterday overtook the
Royal Air Force armada while
returning from manoeuvres in
Scotland.

The planes encountered a dense
fog and one bomber crashed at
Belford, Northumberland. Two
of the occupants were incinerated.

A second plane was wrecked
at Sunderland, but the crew were
saved.

A third plane is missing, and
a half dozen others have made
forced landings without sustaining
damage.

So far, the Royal Air Force
death-roll this year is 42.—Reuter.

SUGAR REFINERY
FOR CANTON

Survey Now Being
Undertaken

(From Our Special Correspondent)

Canton, Sept. 27.

Mr. William Hall, an American
chemical engineer, arrived here
to-day from Manila to take up his
appointment by the Kwangtung
Provincial Government, in con-
nection with the establishment of a
sugar refining factory in Shun
Cho village close to the Pearl
River, about 11 miles south of
Canton.

Machinery of the plant will be
ordered from the Honolulu Iron
Works, according to an official of
the Provincial Department of Re-
construction, and a preliminary
survey will be undertaken by Mr.
Hall, who will also submit a
detailed plan for this factory.

The factory and equipment will
cost about \$350,000, and con-
struction work will cover a period
of four months.

COMMUNISM IN NORTH-
WEST FUKIEN

Red Menace Reported Now
Definitely Over

Nanking, Sept. 27.
SEVENTEEN thousand people, in-
cluding a large number of
young students, were massacred by
Communists who recently raided
North-west Fukien according to a
semi-official despatch from Foo-
chow.

The message adds that the red
menace in North-western Fukien
is now definitely over and the
situation is expected to be com-
pletely liquidated in another ten
days.

A band of Communist remnants
to the North west of Yenching, num-
bering about three hundred, are
reported to have been annihilated,
while another band of similar
strength also suffered heavy losses
as the result of an unsuccessful
raid on Shuncheung. The latter
force being surrounded by Govern-
ment troops.—Reuter.

LANE, CRAWFORD'S
FINED \$50

Complaint Against Wanchai
Bakehouse

Mr. D. M. Goodall, the manager
of Lane Crawford's Restaurant,
appeared before Mr. Schofield at
Central Magistracy yesterday on
a summons for failing to keep a
bakehouse in Burrow Street.
(Continued on next column.)

LOCAL AND GENERAL

The Colony had a clean bill of
health yesterday.

Patrons of the Repulse Bay
Hotel are informed that no dinner
dance will take place at that
establishment on Friday September
29.

Two unemployed Chinese men
fined \$15 each by Mr. Balfour at
Central Magistracy yesterday for
cruelty to chickens. It was stated
that fifty-three chickens were kept
in three baskets.

RICE TAX IN
CANTON

Vigorous Protest By
Local Merchants

GUILD APPEAL TO
CHINESE CHAMBER

A somewhat belated, but none-
theless vigorous protest was voiced
at the Chinese Chamber of Com-
merce yesterday against the pro-
posed tax on rice which will come
into force at Canton very shortly.

The members of the rice Mer-
chant's Guild addressed a lengthy
petition to the Chamber, setting
out the harm that would be caused
to their business were the
Canton authorities to impose the
tax.

The document addressed to the
Chamber stated that the rate of
\$1 tax on each picul was too high
and it was estimated the Canton
Government would collect at least
\$20,000,000 from this tax alone
and that Hongkong merchants,
who export the bulk of the rice
to Canton, will have to meet a
big proportion of this sum. It
was also stated that of the rice
consumed by Kwangtung province
30 per cent was grown in China
and 70 per cent was imported,
and of the latter, most of the
cereal passed through Hongkong.
The guild sought the complete
withdrawal of the tax, or failing
that, a reduction, and if possible,
that the date of introduction be
deferred until more prosperous
times.

The representative of the Guild,
who was present said that the
question effected a large number
of merchants and that there were
many rice exporters in the Colony
who may have to suspend business
because of the new tax.

After a brief discussion it was
decided to write to the Canton
Chamber of Commerce asking
them to take up the question with
the authorities there.

R.A. LIEUTENANT
FINED \$5

Horses Running Wild In
Shaokwan

As a result of two horses being
let loose near the Bay View Police
Station in Shaokwan, Lieutenant
Shey of the Royal Artillery ap-
peared as defendant before Mr. Scho-
field at Central Magistracy yester-
day and was fined \$5.

Traffic Sergeant Howell said he
saw the horses running wild in
front of a tram and that they were
found in the backyard of the China
Motor Bus Company.

Lieut. Shey pleaded that the
horses were formerly kept in Hong
Kong, and in the absence of the
coolies who had charge of them,
they tried to walk back to Hong
Kong.

MAN WITH BAD RECORD

To Face Third Charge After
\$2,500 Fine

Fined \$2,500 with the alternative
of one year's imprisonment by Mr.
Balfour at Central Magistracy
yesterday, for the importation and pos-
session of dutiable liquor on board
a junk, a Chinese named Chan Sing
is to face a further charge of re-
turning from banishment.

Defendant had four previous con-
victions for similar offences and
had served terms totalling two
years.

The third charge against him
will be heard on Saturday morning.

Wanchai in a Clean Condition.

Sanitary Inspector Lockhart,
prosecuting, said that he visited
the premises on 14th and found
the place not in a clean state
generally.

"They have been previously
warned," he said and added,
"The Medical Officer visited the
place this morning and found
everything all right."
A fine of \$50 was imposed.

Buenos Aires, Sept. 22.

Despite strict censorship of all
news reports coming out of Bolivia,
it is generally believed here that a
delicate situation has developed in
Lapaz, the Bolivian capital, as a
result of recent military reverses
and the obligatory mobilisation of
young men down to nineteen years
of age.

The president is reportedly op-
posed to any suspension of opera-
tions unless and until Bolivian
sovereignty over the regions oc-
cupied in Gran Chaco is guaranteed
recognition. The failure of at-
tempted mediation on the part of
Argentina, Brazil and Chile has
aggravated the situation and sole
hopes for the establishment of peace
are now believed to rest with the
efforts of the League of Nations.

SALE OF INTOXICATING
LIQUOR

Chinese Fined \$200

The case, in which Ho Wai
Chung, manager of the Kwong Lee
Cheong shop in Tin Lok Lane, was
charged with selling intoxicating
liquor without a proper licence
was concluded before Mr. Schofield
at Central Magistracy yesterday,
when a fine of \$200 was imposed on
the defendant.

Mr. Horace Lo was for the
defence and Det-Sergt. Fitches
prosecuted.

It will be recalled that Ho was
charged with having sold the li-
quor, a few bottles of beer, to some
Indians on Sept. 1.

Evidence was given by the defen-
dant who said he had never had
any Lion Brand beer in stock. The
beer the Indians were found drink-
ing when the police raided the
place was brought in by one of the
Indians. He said that he had
attempted to stop them from drink-
ing in his shop but they would not
listen to him and kept on drinking
despite his protests.

Questioned by Sergt. Fitches as
to his having received a case of
H. B. Beer from another shop on
the same day, defendant was un-
certain in his answers and did not
satisfy the Magistrate.

Mr. Lo submitted that his client
was innocent of the charge but His
Worship decided otherwise.

GRAN

FANG CHEN WU HEADING FOR CHARHAR

Another Little War Comes To An End

"REBELS" FEAR TO ATTACK GOVERNMENT TROOPS

Peiping, Sept. 27. THE Fang Chen Wu bubble appears to have burst.

While Japanese militarists are still holding their hand, Fang, instead of attacking the strong Chinese Government forces holding the Armistice Line, is now moving north-west and has apparently headed back for Charhar whence he came.

With the Chinese Government troops unable to enter the demilitarized zone, and with the Japanese army remaining stationary, Fang has a perfect get-away of which he is making use.

Whatever his objective for driving down on the zone it has failed, but it appears he is getting away again none worse for his adventure.

Official Communiqué

Tokyo, Sept. 27. A War Office communiqué says that troops belonging to Fang Chen Wu and Chi Hung Chang have evacuated the demilitarized zone in North China, in accordance with the request of the Kwangtung Army.—Reuter.

Desire To Avoid Bloodshed

Peiping, Sept. 27. JAPANESE military authorities are withholding action against Fang Chen Wu, partly on account of a desire to avoid unnecessary bloodshed and partly owing to assurances from Ho Ying Ching that the Chinese are able to handle the situation.

Rebels under Chi Hung Chang are now also approaching the Armistice line.

Chinese reports allege that two Japanese planes dropped two bombs on Kaoliang with the result that two Government troops were killed and three wounded.—Reuter.

Support From Canton

(From Our Special Correspondent)

Canton, Sept. 27. FOR the support of General Fang Chen Wu, the Association for the Relief and Assistance to Volunteers to-day remitted \$30,000 national currency to the General's headquarters in Tu Shih Kow, Charhar.

General Fang Chen Wu is sending a daily wireless report to the authorities here reporting the movement of his troops and urging funds be remitted to him for the recovery of Jehol. In one of his messages, General Fang stated that Tang Yu Lin who was responsible for the Jehol debacle realized his mistake and is sending his troops to assist General Fang in the recapture of that province.

Although the South-west Political Council has appointed General Fang Chen Wu as Commander-in-Chief of the North-west Anti-Japanese forces, it is deemed proper that in the interest of expediency remittance to him is best sent in the name of the Association for the Relief and Assistance to Volunteers, which is under a duty to raise money to support fighters against Japanese invaders.

Meantime, the People's National Salvation Association makes daily seizure of Japanese goods. The latest haul includes piece goods, marine delicacies, clocks and watches, screw drivers, glass ware, sugar, and others.

Details of Kaoliang Fighting

Peiping, Sept. 27. Details are now coming in of the fighting at Kaoliang yesterday. Reports state that a body of General Fang Chen Wu's cavalry galloped up to Kaoliang and managed to gain an entrance. A small Government force of 300 men put up a resistance and street fighting went on for a considerable time, the invaders being finally surrounded and defeated.

The Government losses are given as one killed and 10 wounded.

It appears that the main body of General Fang's forces is now at Fanchiao, a little to the north of Kaoliang. This is inside the demilitarized zone, and General Fang is preparing an attack on the Government troops manning the armistice line.—Reuter.

"Politically" Ill

Shanghai, Sept. 27. General Huang Fu is now pleading sickness, and the date for his return to Peiping has been indefinitely postponed.—Reuter.

Chiang Returning to Tokyo

Shanghai, Sept. 27. Chiang Tso Ping, Chinese Minister to Japan, arrived here from a holiday in Sochow this afternoon. Interviewed by "Reuter," the Minister declared he was leaving for Tokyo within a week. He denied the reports that he had been entrusted with an important mission by the Government, saying that there is no way of improving Sino-Japanese relations unless Japan realizes her blunders.—Reuter.

Another Incident At Tangku

Tientsin, Sept. 27. Another incident occurred at Tangku yesterday morning, when the local Japanese military authority suddenly served a notice to the Chinese railway guard at the railway station demanding their immediate evacuation declaring that the Japanese garrison troops were adequate to maintain local peace and that the service of Chinese railway guard could be dispensed with.

The Chinese railway guard, powerless to offer resistance, did comply with the demand of the Japanese.—Central News Agency.

YELLOW RIVER FLOOD DISASTER

50,000 People Drowned

Nanking, Sept. 27. FIFTY thousand people drowned, a million starving and two million affected, is the official estimate of the losses caused in the Yellow River floods, which devastated the triangle lying between the New and Old channels of the River in July and August.

The estimate has been prepared after a careful survey of the area made by plane and officials of the Relief Commission, which has been rushing supplies to the destitute peasantry.

Investigations reveal that the disaster was partly due to brigands and troops breaking down dykes for defensive purposes when the Yellow River was rising rapidly.

Vast areas are still under water while, elsewhere, river silt is from four to five feet deep, which renders the soil valueless for years to come.

Field inspectors report that parents are giving away their children, hoping to save their lives during the coming winter.—Reuter.

SIR M. LAMPSON

Now On Farewell Tour

Peiping, Sept. 27. Sir Miles Lampson, British Minister to China, accompanied by Mr. Teichman, took off this morning by air for Shanghai.

After a week's stay there, they will proceed to Nanking, where they will remain for the "Double Tenth" celebrations and pay farewell visits.

Sir Miles and Mr. Teichman will then return to Peiping to make preparations for their departure for Egypt.—Reuter.

Arrival at Shanghai

Shanghai, Sept. 27. Sir Miles Lampson and Mr. Teichman arrived from Peiping at 3.40 p.m. to-day.—Reuter.

Firing will be carried out from Forts during the week ending 7th October 1933, as under:—Oct. 3rd, 10 a.m. Stonecutters. Area affected South of Kap Sing. Mun. and North of Kau Chau. Oct. 5th, 6 p.m. Stonecutters. South of Kap Sing Mun and North of Kau Chau.

GERMAN CONSUL AT SHANGHAI

Placed On Retired List

Shanghai, Sept. 27. DOCTOR Walter Fuchs, the German Consul at Shanghai since August 1929, has been placed on the retired list in accordance with the "new German legislation." It is believed this is due to regulations whereby all Government officials must be able to prove Aryan lineage as far back as "Napoleon's Time."

Dr. Fuchs has steadfastly refused to make any comment.—Reuter.

NEW CONVERSION LOAN

British Treasury's Offer

London, Sept. 28. PARTICULARS are announced of the new Government issue consisting of the addition of £150,000,000 to the existing 24 per cent Conversion Loan, 1944-1949, to be subscribed partly by cash and partly by conversion.

The price of the issue for cash subscriptions is £94 per cent, giving a yield of £2.132 per cent. In interest only, and a yield of £3.31, or £2.197 per cent, allowing for redemption in 1944 or 1949 respectively.

The price of the existing loan, of which £55,000,000 had been issued by tender before the weekly issues were suspended at the end of May, is 94½.

Installments are spread evenly over the next two months, the last payment being due on December 1. The first interest payment of £1 will be paid on April 1, 1934.

Holders of 4½ per cent Treasury Bonds due on February 1 next may convert their holdings into the loan as from October 1, receiving £108.7.6 of Conversion Loan for every £100 nominal of Bonds converted, and will receive on February 1 next a special interest payment of £17.8 per £100 of such Bonds, and on April 1 a full half-year's dividend on the new loan.

The amount of these 4½ per cent Bonds outstanding is £50,757,000 and holders who convert will receive a preferential allotment of Conversion Loan.

The saving on interest, if the total amount outstanding were converted, will be at the rate of £934,246 per annum.

Cash applications will be opened and closed to-morrow. Conversion applications opened yesterday and will be closed on October 3.

Separate prospectuses are being issued by the Post Office and by the Trustee Savings Banks, providing for cash subscriptions to the issue of 24 per cent Conversion Loan to be held on the Post Office register and for the conversion into that issue of 4½ per cent Bonds held on that register.

The amount so issued will be additional to the £150,000,000 to be issued through the Bank of England.—British Wireless Service.

LORD MAYOR OF LONDON

Honoured On His Retirement

London, Sept. 27. His Majesty the King has approved the conferment of a Baronetcy upon Sir Percy Greenaway, on his retirement from the Lord Mayoralty of London, also the conferment of Knighthoods upon Alderman C. A. Collett and Mr. W. L. Threlford, retiring Sheriffs.—British Wireless Service.

Sir Percy Greenaway was elected to the Court of Common Council in the City of London in 1917, and has been actively connected with the administration of the City. In this connection he has been Chairman of several committees and in 1931 was unanimously elected Senior Sheriff and Alderman of the City.

WILL DE VALERA FALL?

Fate May Be Decided To-Day

Dublin, Sept. 27. THE crisis which has been brewing in Ireland, for some time is likely to be brought to a head to-morrow at the opening of the Dail.

Mr. De Valera will be fighting on two fronts for this time he meets the organized opposition of the United Ireland Party, while he is being hampered by the increasing violence of his nominal supporters in the Irish Republican Army, whom he has repeatedly vainly denounced as playing into the hands of his opponents, by their lawlessness.

Labour Threat

The support of Labour, which was bought at the price of a virtual Labour dictatorship, is not substantial as Labour is dissatisfied with De Valera's Bill for the Relief of Unemployment and is reportedly antagonistic to the revival of the Public Safety Act with its secret Draconian Tribunal.—Reuter.

Beer Boycott Battle

Dublin, Sept. 27. FIFTEEN men with damaged heads were sent to hospital last night after a pitched battle between the police and Republican hooligans in connection with the English beer boycott.

Several thousand people surged round the premises of Messrs. Bass, Ratcliffe and Gretton, stoning the windows.

The arrival police reinforcements towards midnight was followed by scenes of wild disorder.—Reuter.

SILVER MARKET

(From Our Own Correspondent)

London, Sept. 27. Following are the Silver Quotations on the London market to-day:

	Sept. 27	Sept. 26
Spot	185/16	184
Forward	187/16	186

The London on New York cross rate to-day closed at £-U.S. \$4.73½.

RUSSO-GERMAN TENSION

Over "Persecution Of Soviet Press"

Moscow, Sept. 27. GERMANY has diplomatically demanded the revocation of the Soviet order for the expulsion of German journalists from Russia, but M. Litvinoff, Soviet Commissar of Foreign Affairs has declined to accede to the demand.

He declares that expulsion is preferable to reprisals for Germany's "systematic persecution of representatives of the Soviet press."

The drastic action of expelling all German newspaper correspondents from Russia is reinforced by the withdrawal of the correspondents of Soviet official Tass agency and the Soviet newspapers, "Izvestia" and "Pravda," from Berlin.

An official statement explaining the withdrawal and expulsion of the German correspondents declares that the action taken "in view of the impossible conditions created by the German Government bodies for the work of the Soviet press representatives" in Germany, who, suffered arrests, searches, etc., and were finally refused admission to the Leipzig trial where representatives of the press of other countries were admitted.—Reuter.

China's Inability To Absorb Share Of World's Products

SIR G. B. HUNTER URGES LARGER USE OF SILVER

London, Sept. 27. SIR G. B. Hunter, a prominent engineer, in a letter to the "Times," stresses the disastrous results economically and politically due to China's inability to absorb her share of the world's products owing to the lowness of silver, while he does not advocate binimetallism he says silver is payable in many ways. In addition to gold we can accept silver for exports.

U.S. NAVAL PROGRAMME

Refusal To Postpone Building

Washington, Sept. 27. THE United States administration has informed Great Britain that America is unable to postpone any part of her naval construction programme. This decision follows on the recent British communication regarding the proposed American naval building up to Treaty limits.

The British representations on the matter were made to Mr. Norman Davis, United States delegate to the Disarmament Conference, the basis of the contention being that the execution of the entire naval programme might prejudice Disarmament.

It is understood that Britain has accepted the American answer as final.—Reuter.

More Optimism at Geneva

Geneva, Sept. 27. The efforts to find a working formula before the Bureau of the Disarmament Conference meets in October, were continued yesterday.

Although little progress was recordable on the main difficulties connected with the German claim to re-arm a more optimistic note is becoming manifest.

The Italians are still apparently continuing the role of intermediaries. Senor Aloisi, Italian Foreign Minister saw the German delegation yesterday morning and the French and British delegations in the evening.—Reuter.

INDO-JAPANESE TRADE

Termination of Treaty Postponed

Tokyo, Sept. 27. FOLLOWING receipt of the British notification of the decision to postpone the termination of the Indo-Japanese Trade Convention for a month to Nov. 16, the Japanese Foreign Office has instructed Mr. Matsudaira to request the postponement till the Simla Conference has ended.—Reuter.

JAPAN'S NAVAL REGULATIONS

Powers of Naval Chief Enlarged

Tokyo, Sept. 27. NAVAL regulations have been revised enlarging the powers of Chief of the Naval General Staff concerning "questions related to scheme national defence," implicitly carrying authority to block naval reduction or limitation of agreements if necessary.—Reuter.

IMPROVEMENT IN BRITISH FINANCES

London, Sept. 28. The latest Treasury returns show that the ordinary revenue for the current year, up to September 23 amounted to £288,113,307. At the corresponding date of last year the amount stood at £281,860,885.

Ordinary expenditure to date, for the current year, totalled £246,007,032, which is about £32,000,000 less than the total ordinary expenditure at the corresponding date of last year.—British Wireless Service.

PRESIDENT ROOSEVELT STILL UNDECIDED

Regarding Deflation And Devaluation

WORKERS OBJECT TO IMPOSITION OF CODES

New York, Sept. 27. ALTHOUGH Mr. Roosevelt has not yet reached a decision on the questions of deflation and devaluation, it is realised at the White House and State Department that a stable monetary policy is imperative to carry out a steady recovery programme.

Remonetisation of silver by the retirement of bonds by the issue of treasury notes is urged by Mr. John Simpson, President of the Farmers' Union, who in a letter to Mr. Roosevelt blames bankers for the Farm Act and Recovery Act, adding "It is their plan to destroy you. People are overwhelmingly disappointed and disgusted with the recovery programme. They still have confidence in you but no faith whatever in the programme."

Interlocked with the N.R.A. efforts is the difficult armament question. Special Washington correspondents point out that U.S.A. acquiescence to the British suggestion of the suspension of laying down projected cruisers would have meant the suspension of 40,000 tons of construction. It is assumed that if U.S.A. builds the cruisers Britain, and perhaps Japan, would wish to match them, resulting in a considerable waste of tonnage.—Reuter.

250,000 U.S. Workers Strike

New York, Sept. 27. STRIKES arising out of the imposition of codes in the United States are now involving 250,000 workers, while the restlessness of the farmers and the Wall Street intransigence are combining to present to the recovery campaign another crisis. The country is anxiously awaiting some decisive action by the president in the shape of a monetary policy announcement.

The slowness with which credit is flowing to industry is indicated by the weekly Federal Reserve statement, estimating that Reserve deposits exceeded legal requirements by over U.S. \$600,000,000, all of which represents idle capital.

Senator Wheeler has revived his silver monetisation scheme. A Code involving 500,000 workers in the Merchant Marine Service

is among the latest schemes presented by the National Recovery Administration. It provides a 48-hour week and a minimum hourly wage of 40 cents.

General Hugh Johnson, head of the Recovery Administration, yesterday signed nine Codes in the hospital where he is undergoing a minor operation. He expects to approve six more Codes before returning to office next week.—Reuter.

NEW PLANS FOR WHITEHALL

Offices To Cost £2,000,000

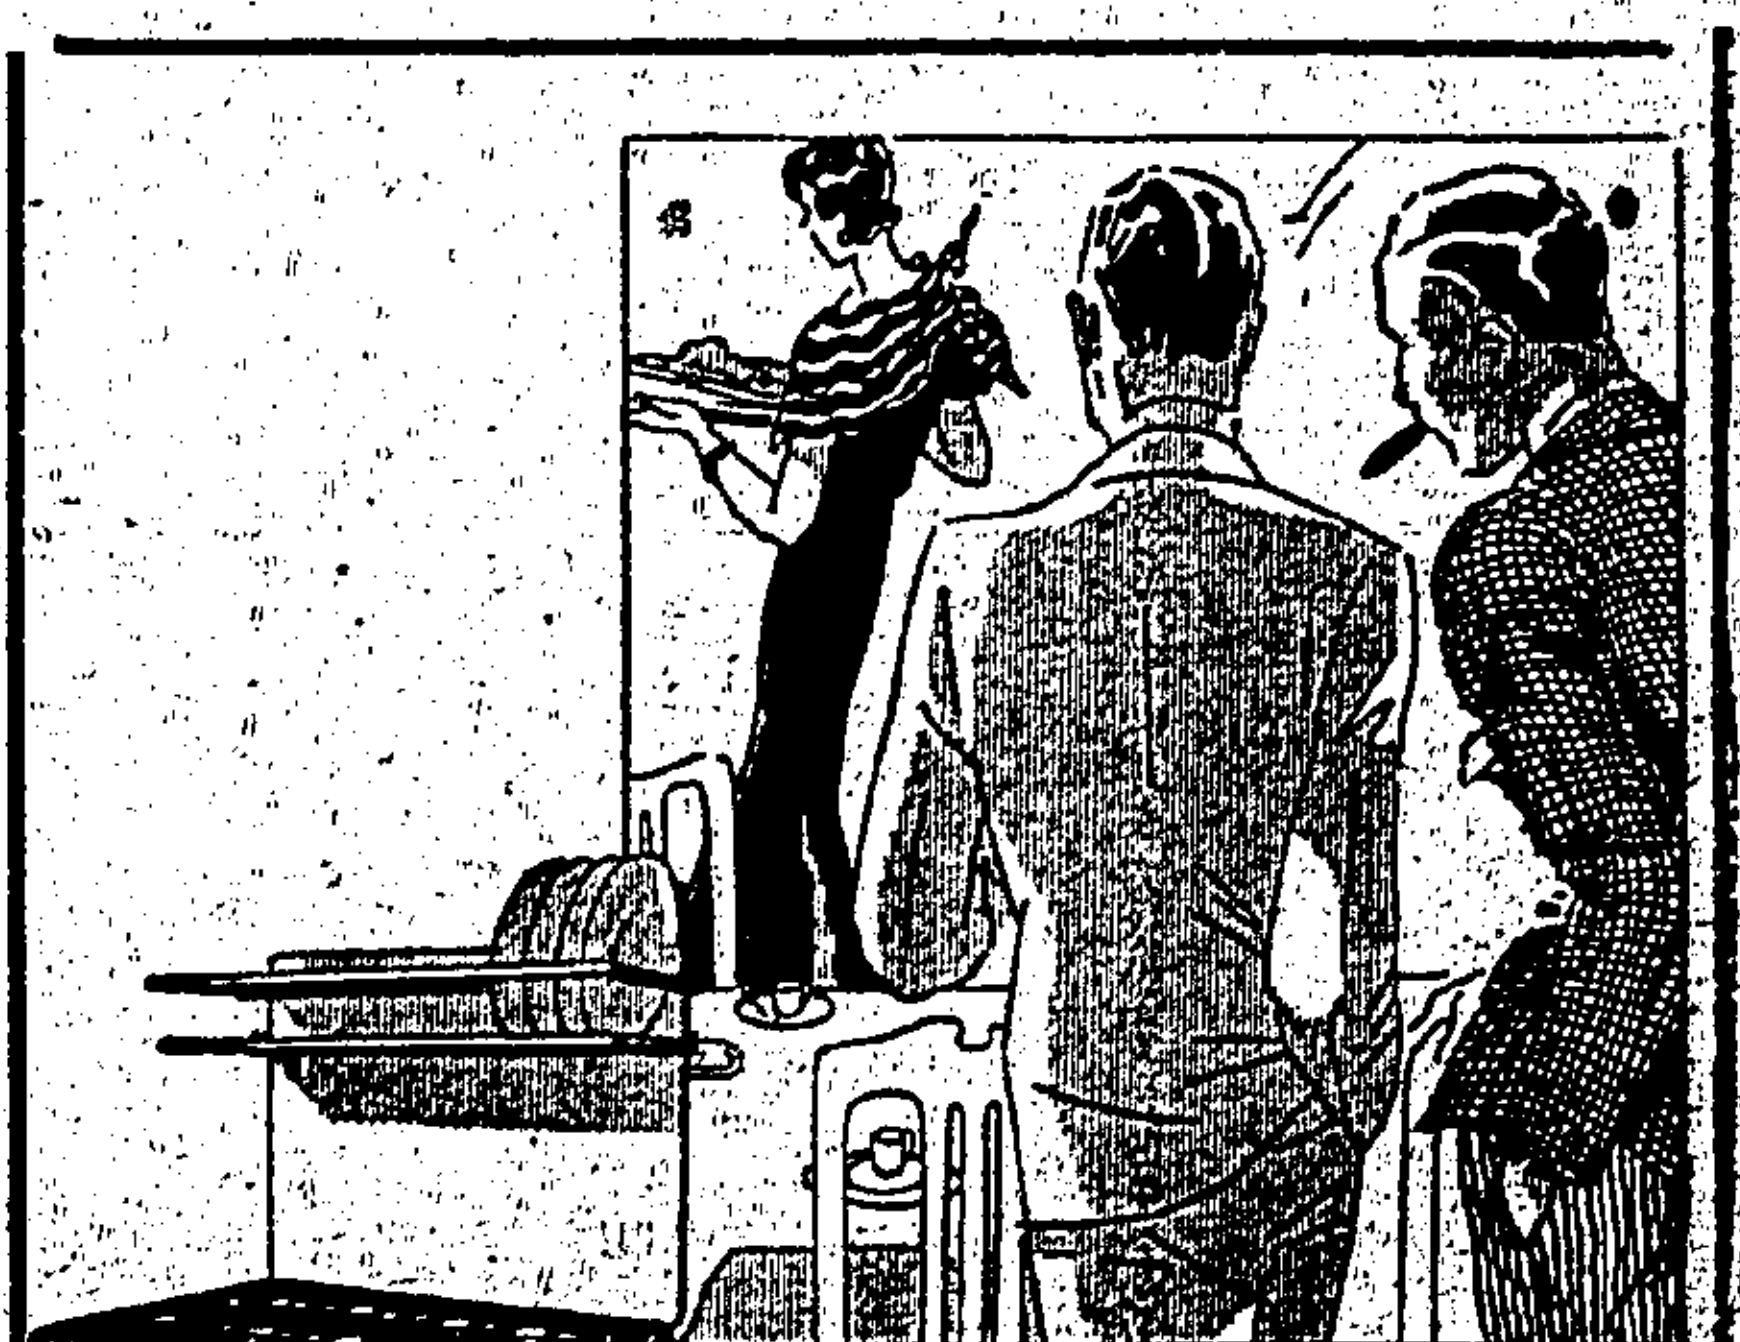

London, Sept. 28. IT IS anticipated that the Government will shortly sanction the preparation of plans for the construction, on the embankment side of Whitehall, of a new block of Government Offices costing approximately £2,000,000.

The act authorising the erection of these buildings was passed 21 years ago, but the scheme was postponed owing to the war and the need for economy. At present the staffs of some departments in Westminster are working in buildings on which the Government is paying rent, while the accommodation in some instances is considered inadequate and unsuitable.

The Office of Works has already asked the Royal Institute of British Architects to nominate ten architects, whose names will be submitted to the committee making the final selection.

It is stipulated that the architects nominated shall not be over 55 years old.

The scheme, if proceeded with, will take some years complete.—British Wireless Service.

—by Jove!
your wife
can cook!

The secret!

Here's the "New World" Gas Cooker. It's the best in the world. It's the only one that's so easy to use. You can have them in beautiful bright colours, with chrome-plated fittings, if you wish.

Is there a greater thrill than for you to overhear such a whisper? But when you have a "Regulo" "New World" "Regulo"—controlled Gas Cooker you will know that all your cooking is certain to be perfect.

Because the "Regulo" oven heat control keeps the heat steadily at the right point for the cooking—neither too hot nor too cool—and there's no need to open the oven door until you turn out the food, done to perfection.

See these amazing new Gas Cookers in our showrooms to-day.

RACE PONIES AUCTIONED

"Australian" Fetched \$1,200

NINETEEN SOLD

No less than 19 ponies, including three "Australians" were sold by public auction at the Hong Kong Jockey Club, Happy Valley yesterday. A large crowd of racing enthusiasts were present, and the ponies attracted quite a lot of keen bidding.

A 1934 Australian sub-pony No. 6 which was drawn this year but which has not yet started its racing career produced the highest bidding, no less than \$1,200 being paid for her. She was bought by Mr. Harriman, the well-known jockey.

Of the local griffins the highest price paid was for Widnes—\$875. Colonel D. G. Kozkik of the Canton Riding School bought no less than eight ponies.

The Sales.

Vienna, Colonel D. G. Kozkik, \$50.
Night Patrol, Colonel D. G. Kozkik, \$35.
Empress Hall, Colonel D. G. Kozkik, \$30.
Oh Yeah, Chinese Maritime Customs, \$50.

Gold Bar, Mr. S. W. Tang, \$50.
Widnes, Mr. S. W. Tang, \$875.
Swale, Mr. A. Bower, \$70.
Triumph, Mr. Y. M. Loo, \$65.
Jimmy, Col. Kozkik, \$30.

The Raincoat, Mr. Y. M. Loo, \$150.
The Raincoat, Mr. E. Joseph, \$60.
Bluebird, Mr. A. Coppin, \$75.
The Parnigan, Col. Kozkik, \$40.

Jingo, Chinese Maritime Customs, \$60.
Agua Pura, Mr. Y. M. Loo, \$55.
Little Rock, Col. Kozkik, \$35.

Australian Ponies.
Choy Pak, Col. D. G. Kozkik, \$35.
Miss Jummy, Col. Kozkik, \$40.
Australian Sub-Pony No. 6, Mr. Harriman, \$1,200.

The following ponies were withdrawn:
Pure Music; Cuckoo Eyes; Jack O'Lantern; Victor; The Ricebird; The Rainbow; Funny Face; Whopper; Hazel Leaf.

sent post haste to Preston to sign Jack Mustard. It was the last day that players could be signed by clubs concerned in League problems, and it was only when the hands of the clock pointed to a few minutes to twelve that an agreement was reached. In the case of Jones, negotiations extended from Saturday afternoon until Sunday evening, when terms were agreed upon. As, however, transfers on Sundays are not legal, the parties had to wait until after midnight before completing the deal.

Full Of Grit.
Pat Malloy, the Fulham half-back who was transferred to Bristol Rovers during the close season, has earned the nickname of "Grit" Malloy from the Rovers supporters. Because of the difficulty that confronted Capt. Prince-Cox in finding a team against the Palace last Wednesday Malloy, although warned to bed this day previous, with a severe attack of sunstroke, turned out for his club and played a great game.

Burnley Coffers Enriched.
Burnley could have transferred their clever little inside-forward Jones, a proven finisher over last season, but would not have hesitated for their long run in the Cup. It was only a question of time and who would go to the highest price, and as Blackpool proved to be the victor, they are the lucky ones. Incidentally, the Turf Moor club have not lost a game by hanging on to Jones so long, which is contrary to the usual experience. £4,500 is something like the figure.

Leeds Sign A Schoolboy.
Leeds have followed the example of Sheffield, United, and Harry Gooney by signing on Goldberg, the Leeds schoolboy international. As they cannot play him as a professional yet they have found him a job in the office as "Sheffield United" did with Gooney.

Manchester United have paid a flying visit to Bradford City headquarters to collect data respecting Peasey, their centre-half. The Derby manager has been sounding the warning alarm with a United force of 10,000, in respect to Peasey, who is a respected local figure.

(Continued from Page 10.)

The Baby.
Gravesend United players, most of them seasoned campaigners, had a shock in their last Kent Amateur League match. They knew that they were to be assisted by a new outside-left, but they could scarcely withhold their astonishment when a boy wearing knicker-bockers said he was their new chum. The boy, Mark Luthers, aged fourteen, of St. Mary's School, Gravesend, played so cleverly that his regular place in the team is assured.

Knew A Thing Or Two.
Groves, the former Blackburn inside-forward, had been playing at inside-left for Derby, but when he met his old team-mates they were surprised to find him at inside-right. Actually this was a master-stroke on the part of Manager George Jobey, for Groves had told him of one of two weaknesses in the Rovers' side (gained from first-hand information, of course) and the Derby "boss" did the rest. Groves was a huge success and astounded his old colleagues; no fault of his that the County only drew.

A little-known fact about Norman Christie, the Huddersfield schoolmaster centre-half, is that at one time he was actually on Newcastle's books as an amateur, but the North-Eastern team let him slip through their fingers.

Snacks of Mac.
Bristol Rovers reeks of "Mac" these days. In the half-back line are McLean and McArthur, the right wing is composed of McNestry and McKay, whilst on the opposite flank is McCambridge.

Winger Wanted.
Swansea are on the look-out for a right winger and have been in negotiation with one or two clubs. The club has not risen to the price asked by the Spurs for Davies, the Welsh international, and the need for a capable outside-right is a pressing one.

Now A Pro.
Although they are known as the "Amateur's Rest," Hartlepool sometimes sign as a professional one of their many unpaid recruits. The lucky lad this time is George Brown, a half-back of whom Manager Carr expects great things.

Tommy Dawson, the former Clapton Orient left-back, may be signed by a London club in the next few days.

Blackpool have taken a fancy to Goldie, right-half of Shawfield, but they will have to contend with opposition from Portsmouth.

Clarke, the nineteen-year-old centre-half of Trehafod, who has signed as a professional for Bolton, secured six medals in Rhondda junior football last season.

One of the North-Eastern First Division clubs is awaiting a "by your leave" before troubling to approach Swansea respecting Ferguson, who, after a lengthy spell in the reserves, is again their No. 1 goalkeeper.

Blackpool know all about Smalles, an outside-right with Tow Law, who is also a brother of the Seaside's wing forward of the same name. So do Norwich and Stoke, who are expected to make trial offers if the player maintains his promise.

Vango's New Post.
Following the example of other professional players out of a job, Vango, the former Clapton Orient and Queen's Park Rangers half-back, has thrown in his lot with a works club. He has decided to assist London Paper Mills (Dartford) F.C., who promise to create a stir in Kent League circles this season.

All For Nothing.
The fair-haired Reg Hill, centre half-back, is the new captain of Hartlepool. Clubs do not often get good players for nothing, but this is what happened in the case of Hill and the Pools. He was playing for Tranners last season, and Messrs. Hillers, in effect, (Continued on next column)

KOWLOON AND THE P.W.D.

What Was Done In 1932

The following are extracts from the P.W.D. report for 1932 and in idea may be obtained from it regarding the activities of the Public Works Department in Kowloon during that period.

Government buildings were kept in a good state of repair, and painting, colourwashing and repairs in accordance with the recurring programme were carried out to twenty-four buildings. Major repairs included the following:—Blackheads Signal Station and Kowloon Godown—extensive repairs to typhoon symbols, Yamnati Old Market—repairs to floor surface and W.I. hangars, Tsim Tsui Tsui Police Station—renewal of most Royal Observatory—repair of extensive white ant damage, Central British School—repair of extensive white ant damage, Tsim Tsui Tsui Police Station—repairs to roof and white ant damage, lime and cement concrete surfacing, Yamnati Police Station—expanded metal guards to windows, Ma Tau Kok Cattle Depot—repairs to floors and chimneys, Mong Kok Fire Station—repairs to partitions, etc., Police Training School—repairs and alterations to entrances and white ant damage.

The electrical installations were maintained in good order. 273 fans, twenty-five radiators were cleaned and overhauled. Thirty-two fans and motors were completely re-wound and thirteen radiators fitted with new elements. Additions and alterations to 116 points were carried out. Eight police recall signal lanterns were installed in Water Police Station. 1,037 points in thirteen Government buildings were tested and repaired and thirty-five inventories of electrical fittings issued.

Expenditure, \$42,560.68.

IMPROVEMENTS TO BUILDINGS.

The principal improvements carried out under this heading were as follows:—Police Training School Alterations to Garages, Tsim Tsui Tsui Police Station—new dock in Charge Room, Yamnati Deportee Buildings—various alterations, Kowloon Fire Station—new Partitions, Hung Hom Market—new kitchen, Kun Chung Market—new iron grille gates, Yamnati Government School—alterations to lavatories, Kowloon Junior School—erect Bostwick gates.

ROADS AND BRIDGES

The road surfaces of approximately forty-three miles of roads were maintained in a satisfactory condition. Telephone lines and instruments were maintained in good order. The lines, and instruments of the Kowloon-Canton Railway were also maintained in a satisfactory manner.

THE SEWERS.

Nullahs, etc., storm water drains, and trained nullahs were cleaned, repaired and maintained in good condition, the open channels and nullahs being cleaned by the Sanitary Department. The automatic flushing tanks were kept working continuously and sand deposits, as these accumulated, were removed. Many defective traps, gullies, gratings etc., were replaced, and a

"Oh, we have too many half-backs on our books. You can have him, free, gratis and for nothing." He has opened strongly, and just watch if the Pools do not make a pile out of him before the campaign ends.

Beats About Malam.

It is not because Chesterfield have lacked big offers for Malam, the clever young inside forward, that he is still with the Crooked Spire club. No, it is because Chesterfield, in their anxiety to get back to the Second Division, mean to keep all their young "blooms" in a Big Push which, in early form, should not land them far from their objective. You would be amazed if you knew how many clubs have asked Chesterfield to name their figure—one club was quite prepared to go as

number of old disused drains destroyed and filled in. Manhole covers were renewed on the principal bus routes. All metal work in connection with the drainage systems was inspected, and where found necessary, repaired and tarred.

Gas Lighting.—The total number of street lamps in use at the end of the year was 535, an increase of four over the previous year. All lamps are incandescent. Expenditure, \$33,346.97.

Electric Lighting.—The total number of lamps in use at the end of the year was 322, an increase of four over the previous year. Expenditure, \$31,876.21.

Extension of Lighting.—Eighteen additional electric and five additional gas lamps were installed. Typhoon and Rainstorm Damages.—Following the typhoons repairs of varying magnitude were carried out to the following buildings:—Kowloon Hospital, Police Training School, Tsim Tsui Tsui Police Station and Tai Kok Tsui Market. Expenditure, \$3,899.03.

Maintenance of Water Works.—A constant supply was maintained on 272 days during the year.

In June a new system of street fountains was completed which enabled a supply of eleven to twelve hours per day to be given in the more congested districts, despite the shorter periods of supply available through the general system. Altogether 153 new fountains were installed, in addition to 130 old fountains also in use. Further reference to this new fountain system is made in Paragraph 195 of this report.

The supply during the year was maintained at the necessary pressure by means of connections from the 24" trunk main.

The construction of a five million gallons service reservoir on Yamnati Hill and the laying of a 12" distributing main circuit when completed will make a vast improvement in the general supply to Kowloon Peninsula.

SHING MUN.

The total yield of the Shing Mun River as measured by the Recorder and V. Gauge at the Upper intake was 407.86 million gallons as compared with 308.45 million gallons last year. In addition 138.4 million gallons were obtained from the Needle Hill stream intake. The pumps below Pineapple Pass worked on 224 days during the year and delivered 48.82 million gallons equivalent to 219,000 gallons per working day. During the year 1864.67 million gallons were delivered from the Shing Mun Valley through the Tunnels into the Reception Reservoir, but a large percentage of this quantity could not be stored and ran to waste. The minimum monthly yield was in May when the quantity delivered was 62.83 million gallons.

The total quantity of water supplied during the year was 1899.15 million gallons (excluding 98.76 million gallons supplied to Water Boats at Lai Chi Kok) which gives an average daily consumption of 5.12 million gallons or 17.0 gallons per head per day based on an estimated population of 302,000.

far as 25,000, but the answer was a very emphatic "Nothing doing." All the disappointed managers can do is to agree that Malam's talent is being wasted in Northern Section football.

Cardiff's Left Wing.

Leslie Jones, the Alec James of Cardiff, now has his "Bosch" in Hutchinson, the new left winger. They both use their heads, and can think while on the run. Hutchinson alone when he took the ball on the run from Jones against Reading. Mallors ran out to meet him, and it looked as though there would be a head-on collision. But the winger passed back for Henderson to score with a perfect low drive. It was the best goal since Scotland's Ninian Park when O'Callaghan and Len Taylor scored similarly.

Lovely new undies have arrived at the JADE TREE, 21, Hankow Road, Kowloon, also dainty frocks and school dresses for children, at most reasonable prices.

PEREIRA ATTACKS 440
RECORDSplendid Effort at the V.R.C.
Last Evening: Record
UnshakenCAMPBELL TO SWIM IN HALF
MILE TO-DAY

(BY "WATERMAN")

A great attempt to lower the Colony's record for the 440 yards free style was made by L. Roza Pereira last night at the Colony's Swimming Championships. Pereira kept a very good pace throughout and finished full of going, but he was still a matter of sixteen seconds behind the best swim seen in the Colony—that of J. R. Johnstone in 1929, when he returned a time of 5 minutes 32.2 seconds.

In the "open" team race, the V.R.C. won by a length from the Chinese Athletic Association who were 2 yards ahead of the Club de Recreio.

GITTINS MAKES HIS FIRST
APPEARANCE

S. V. Gittins one of the fastest sprinters of the V.R.C. made his first appearance in competitive swimming this year, preparatory

Diving "Champ"

Ed. da Roza, the local diving champion, who will defend his title to-day.

to swimming in the forthcoming interport. Gittins swam very convincingly and will no doubt be a useful man for Hongkong, in the fifty yards and in the team race. It will be remembered that at the last interport held in Shanghai, Gittins won the fifty yards for Hongkong from Shanghai and Kobe's best men.

The Races.

The programme opened with a fifty yards handicap for boys under twelve years of age, and the event fell to R. Marques who won it in 38.4 seconds, swimming a beautiful stroke throughout. Marques is a promising young swimmer of whom we may hear when he gets older.

The "440."

L. Roza Pereira, W. Lawrence, E. B. Roza and Gnr. Ellington started in the 440 yards. The announcer, Mr. W. Butt, stated at the commencement of the race, that W. Campbell, through slight indisposition was not starting, but was resting himself for the 880 to-day.

Pereira and Lawrence stayed together over the first 100 yards of the race, when Pereira drew ahead and finished the distance in convincing style. It was touch and go whether he would smash the record and had there been someone to pace him, he might have. As it was he returned the time of 5.48.2 seconds.

Lawrence was a good second, finishing within 20 yards of Pereira, and Ed. da Roza was third.

Smith Wins Again.

G. J. Smith, after winning the 100 yards (junior) won the "B" Class handicap over 50 yards, where he conceded the other two seconds. He swam very well indeed, and it was no doubt his performance which led to his in-

clusion in the V.R.C. team in the team-race later in the afternoon. The other four competitors finished so close upon the winner, that the judges were hard put to it to separate them and eventually awarded a dead heat between A. A. Rosa and A. McGrann.

The twenty-five yards under water race was uninteresting, and the team race which followed was rather one-sided, as the V.R.C. proved too good for the other entries.

Three V.R.C. members (B. Gosano, H. M. Remedios and E. M. Marques) swam over fifty yards breast strokes as an interport trial and finished in the order given above.

The Results.

50 Yards Handicap (Boys): 1. R. Marques: Time: 38.4 seconds.
440 Yards Free Style: 1. L. Roza Pereira; 2. W. Lawrence; 3. E. B. da Roza: Time: 5 minutes 48.2 seconds.

50 Yards Free Style ("B" Class Handicap): 1. G. J. Smith; 2. A. A. Rosa; and A. McGrann (dead-heat): Time: 24.4 seconds.

Back Again

S. V. Gittins, who returned to swimming competitions yesterday and helped V.R.C. to win the team race.

25 Yards Under Water Race: 1. J. D. Remedios; 2. L. A. J. Silva.
Open Team Race (six-a-side): 1. V.R.C.; 2. Chinese A.A.

PROGRAMME FOR TO-DAY.

The programme for to-day is as follows:
Event 1.
50 Yards Free Style Championship of the Colony—H. L. Oozio, W. M. Lawrence, A. McGrann, T. L. Paget, Lau Ping Poi, E. M. Critchley, E. B. Roza.

Event 2.
880 Yards Free Style Championship of the Colony—L. C. W. Campbell, L. C. Fullager, L. Roza Pereira, W. M. Lawrence, Fred W. Ambrose, Gnr. Ellington.

Event 3.
100 Yards Free Style Ladies' Championship of the Colony—Mrs. M. J. McMahon, Miss Doris Hunt, Miss Chan Woon King.

Event 4.
Diving Championship of the Colony. (Eight Fancy from Springfield Optional and Two from Platform)—L. C. Morgan, S. H. Wong, L. Roza Pereira, Ed. da Roza, Pte. Morrison.

Event 5.
Mixed Team Race—T. Paget's Team, H. L. Oozio's Team, G. J. Smith's Team, A. A. Rosa's Team, F. W. Ambrose's Team.

Event 6.
Consolation Race.

Event 7.
Water Polo.

FAST WORK AT THE
COURSETrentbridge's Impressive
Gallop Under Mr. Heard

There were some very fast gallops at the course yesterday, one of the most impressive performances being that of Mr. Pearce's Derby winner, Trentbridge, who was taken out over a mile by Mr. Heard. The pony finished in 28.4 seconds over the last quarter.

Hetman also did a very fine gallop, finishing in 28.4. Woodland Stag, went over a slow mile and although he registered 29 seconds for the last quarter, did not look too well. Portia, on the other hand, went very well indeed and put in a splendid finish.

Valorous galloped strongly and Mayflower, also, impressed. Melody was taken out over a mile, travelling slowly for the first three quarters, but he finished very well indeed. He is due for a win shortly.

Daylight Eve and King's Justice also looked as though it would not be long before they will make the acquaintance of the judge.

Shanghai Christmas
Cards

[TO THE EDITOR OF THE "HONG KONG DAILY PRESS."]

DEAR SIR,—The object of this letter is to ask those who contemplate purchasing Christmas Greeting Cards for the coming season, to think twice before they do so from the Chinese Hawkers from Shanghai.

good living to the detriment of those traders in the Colony, who have to maintain shops, pay rent rates and taxes and employ European and local assistants.

These men from the North do not even possess a Hawkers License, yet are allowed to come here and trade, but pay nothing for the privilege, whilst even our poor peanut seller if caught without such a license, is brought up before a Magistrate and probably fined.

I venture to state that if anyone from Hong Kong or elsewhere entered Shanghai and booked orders, the articles imported to that port would be taxed at least 50 per cent whilst the Cards in question are allowed into this port free.

With all this chatter about "Buying British" for goodness sake buy in the Colony from anyone of those who help to support it, and therefore assist Home (Hong Kong) Stores, whatever the Nationality of the proprietors—Thanking you for the courtesy of your space—Yours faithfully,
